Thanks to the generous support of National Grid, we are able to offer an awesome and affordable kid camp program. Our camps celebrate the arts through music, theater, dance, art, and cooking...but that’s only the beginning! The Nigra Arts Center strives to include collaborative life-lessons about the environment, volunteerism and giving back to the community. Our instructors also incorporate STEM (science, technology, engineering and math) so children have an enlightening, creative and educational experience!
