Drama Game Club

Sometimes adults need to have fun, too. Join us for creative drama games! These are activities designed to help individuals use their imaginations, while communicating and having fun together. We will explore using our senses, pretending, role-playing, taking turns, using facial expressions and body language. We may use some “props”, which will be common items easily found in any home. It’s all about making it up, and there is no right or wrong way to participate. We hope to be a little silly, have some fun, and make time to laugh together. Hope you can join in!
