

The National Signal Maxi Arrow is powered by 12 VDC and can be utilized for many mounting applications. The compact one-piece design, with multiple mounting holes, allows for easy mounting visibility.

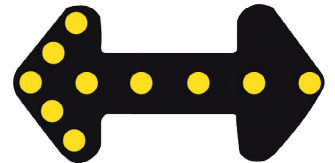

Applications

- *Highways & city streets*
- *Airports & toll booths*
- *Parking lots & garages*
- *Malls & shopping centers*
- *Military bases & border crossings*
- *Stadiums & casinos*
- *Construction areas*
