MADISONVILLE 500 GARDENS

How's it growing?

This map displays locations of Sidestreams 500 Garden Initiative, which aims to give all Madisonville residents and businesses the chance to grow their own food.

500 Gardens is about building raised beds and teaching the community essential gardening skills.

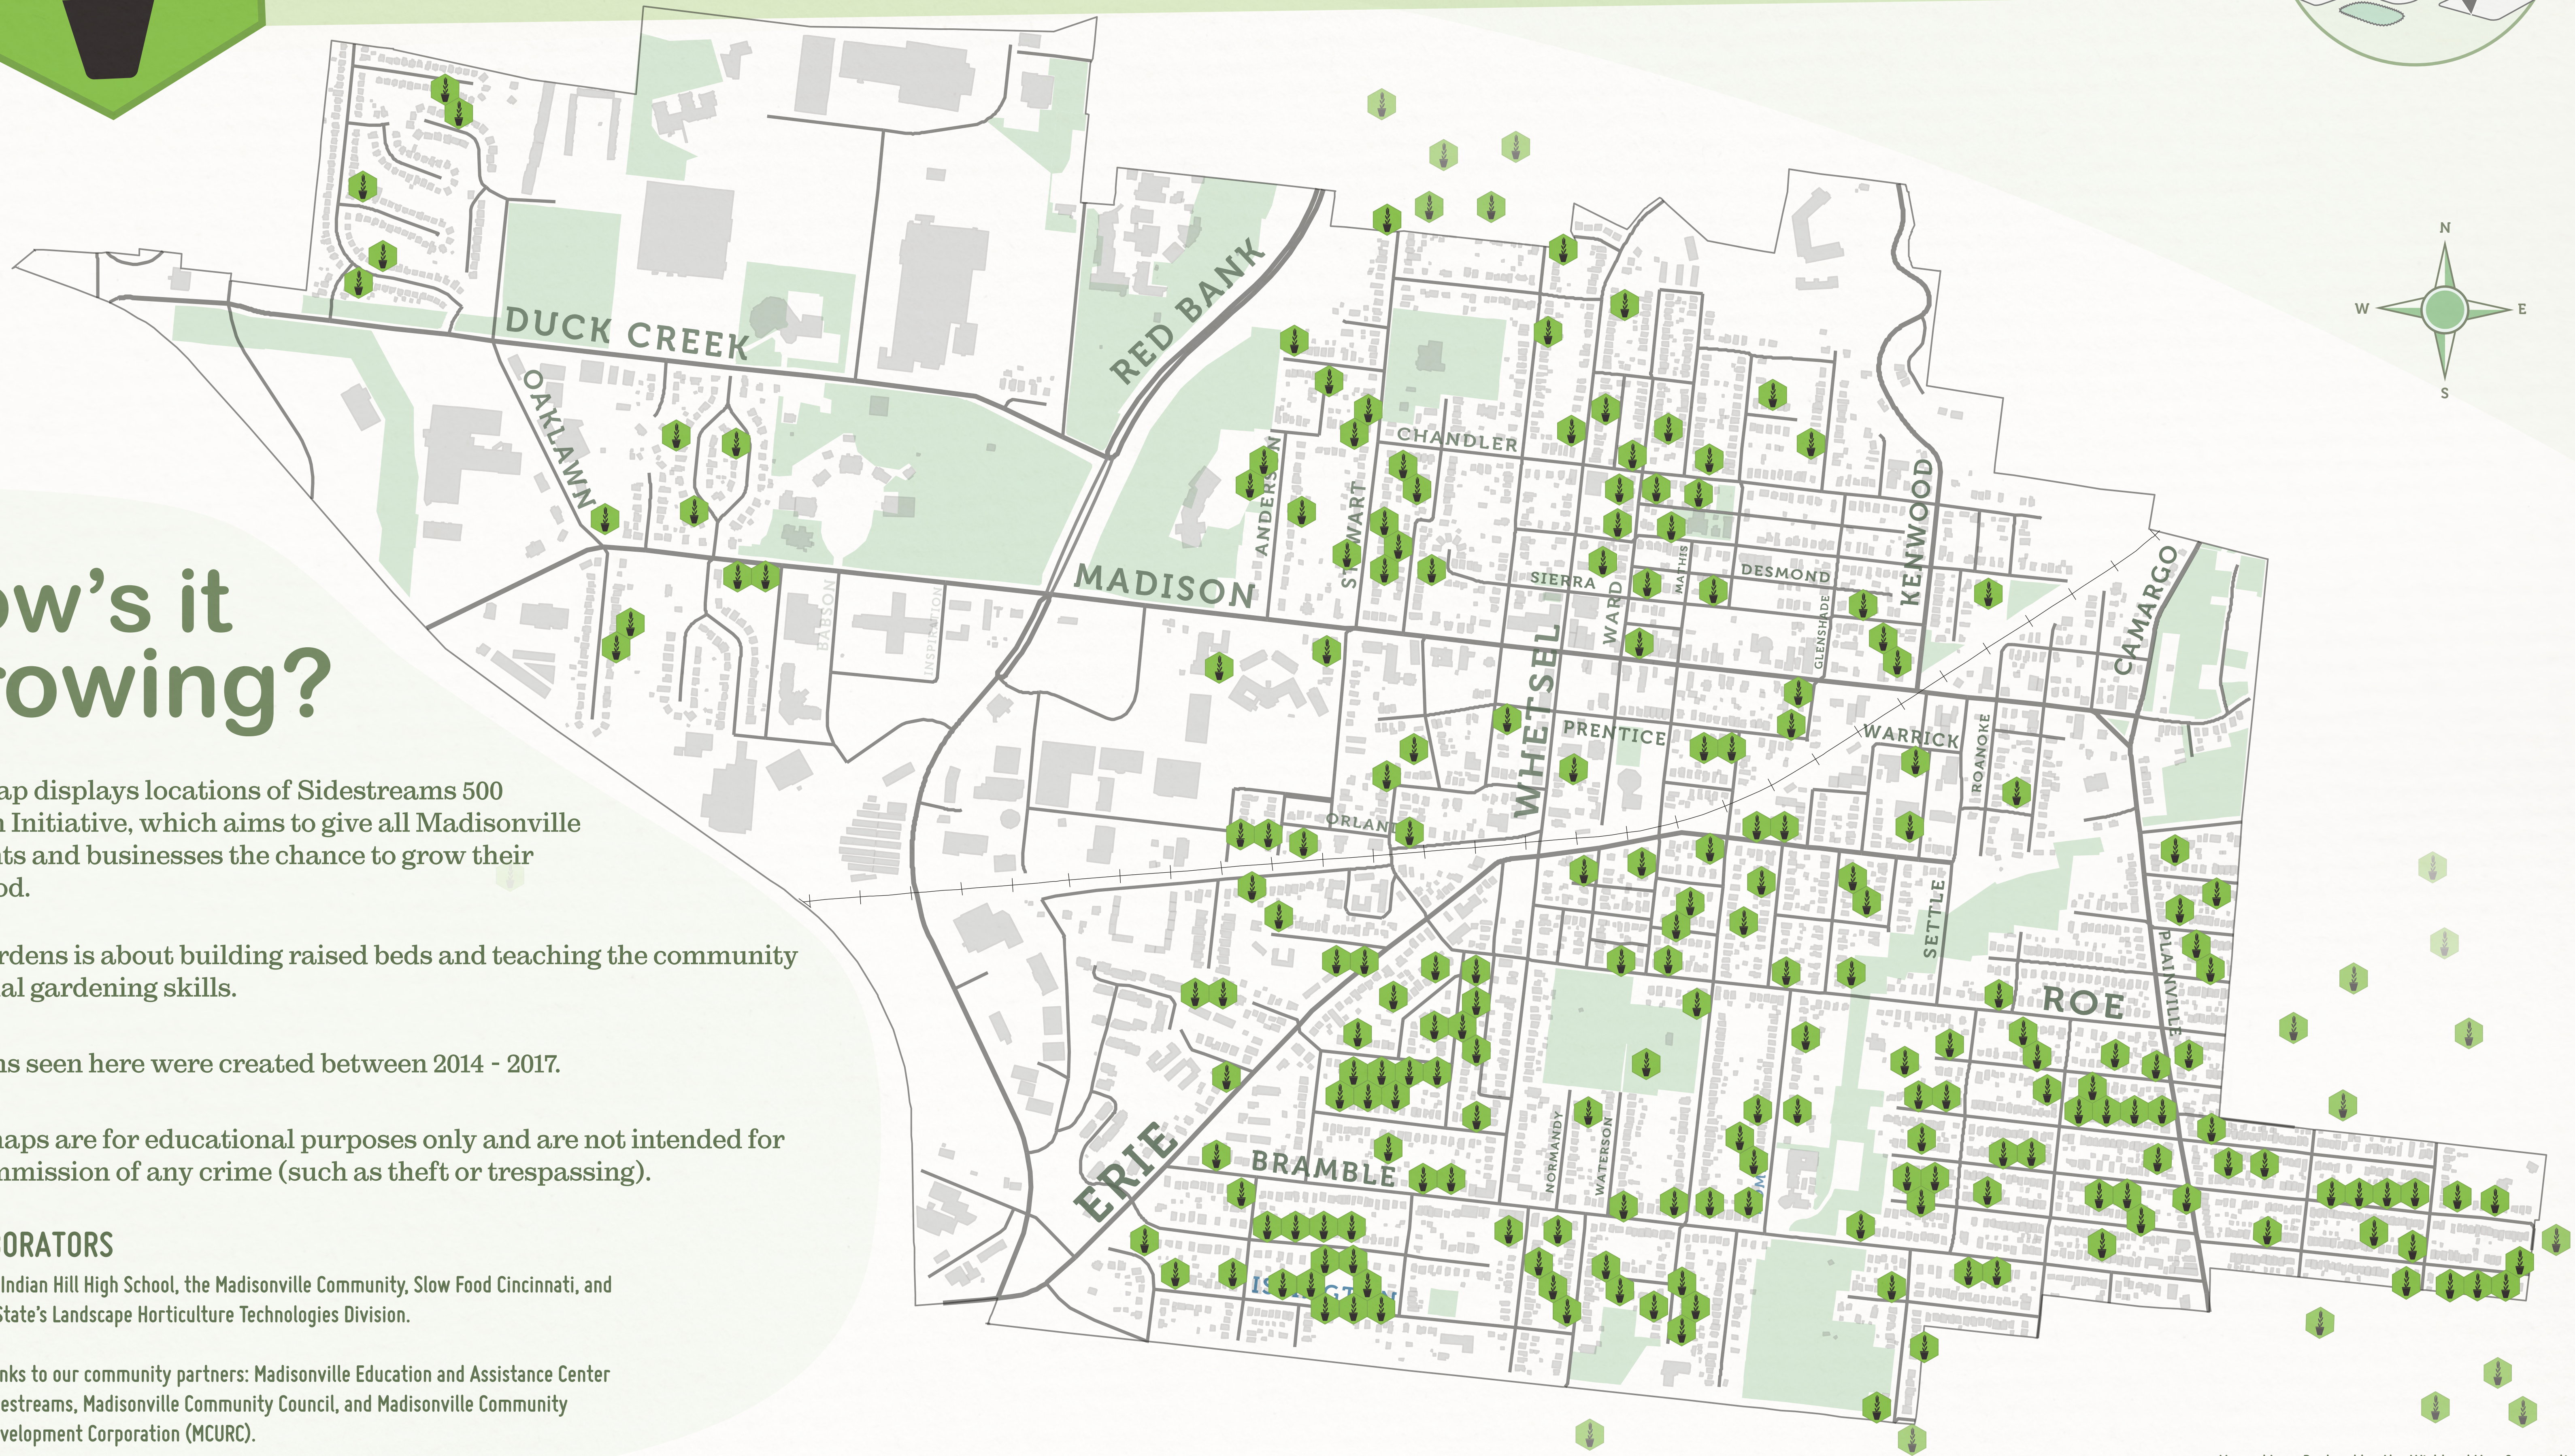

Gardens seen here were created between 2014 - 2017.

Food maps are for educational purposes only and are not intended for the commission of any crime (such as theft or trespassing).

COLLABORATORS

Thank you: Indian Hill High School, the Madisonville Community, Slow Food Cincinnati, and Cincinnati State's Landscape Horticulture Technologies Division.

Special Thanks to our community partners: Madisonville Education and Assistance Center (MEAC), Sidestreams, Madisonville Community Council, and Madisonville Community Urban Redevelopment Corporation (MCURC).

EDIBLE MADISONVILLE

HARVEST WINDOW	
FOOD	HARVEST WINDOW
APPLE	late July – Early November
BLACK WALNUT	September – October
BLACKBERRY	July – August
CHERRY	mid-June – July
FIGS	September – October
GRAPES	August – October
HOPS	August – October
MULBERRY	June – July
PEACHES	July – September
PEARS	August – November
PLUMS	late July – September
RASPBERRIES	June – July, September – October
STRAWBERRIES	June – July

This map encourages you to take a walk on the Wild Edible Side. Raise your food consciousness and see the true amount of harvestable food that grows in your neighborhood: apples, grapes, strawberries, pears, peaches, plums, figs, blackberries and raspberries, and the two most under utilized wild edibles in our region - mulberries and black walnuts! Also highlighted here is the Madisonville Foraging Garden.

Many Wild Edibles and Gardens are located on private property. YOU MUST have permission from the owner to enter their property and harvest any food. Food Maps are for educational purposes only and are not intended for the commission of any crime (such as theft or trespassing).

LEGEND

- APPLE
- BLACK WALNUT
- BLACKBERRIES, RASPBERRIES
