

Downingtown West Football Booster Club Voluntary Random Drug Testing Program

The purposes of the Downingtown West Football Voluntary Random Drug Testing Program are simple:

- to provide parents with an opportunity to monitor the well-being of their child
- to help parents be informed
- to give parents a tool in the fight against teenage drug and alcohol use
- to give our players another reason to "Say No"

The Downingtown West Football Random Drug Testing program will be administered by SPORT SAFE Testing Service, Inc. Sport Safe is a company dedicated to providing high quality services to high schools and colleges across the country. They have over 15 years of experience working with school districts in the development and administration of student drug testing programs.

The program will screen for the following drug classes, substances or their metabolites in collected urine specimens:

Alcohol

Amphetamines

Methamphetamine

Barbiturates

Benzodiazepines (Valium)

Cocaine

Ecstasy -(MDMA)

Marijuana

Methadone

Opiates

Oxycodone/Hydrocodone

Phencyclidine

Propoxyphene (Darvon)

The results of a player's drug screen will be reported by Sports Safe directly and exclusively to the parent/guardians(s) listed on this form. The results will not be shared with Downingtown West High School or its' officials, or anyone other than the parents/guardians listed on this form.

Consequences of a positive drug screen will be determined by a player's parents/guardians. Community and school resources will be provided on the football team website.

There is no cost to participate in this program.

If you would like for your child to participate in the Downingtown West Random Drug Testing Program, please complete the following information:
