

COMPACT TRACTOR PALLET FORKS

Premier compact tractor pallet forks are designed specifically for compact tractor applications. A heavy duty yet lightweight pallet fork frame offers 2000 lb. load capacity while excellent see through visibility eases fork tine placement. We have incorporated into the pallet fork frame a chain drop attachment point that can be used for retaining, lifting and pulling loads from the front of your tractor without damaging the pallet fork frame. The overall height is 29" and the width of the frame is 45". We offer fork tines in 32" and 42" in length. The tines are a Class I rail style and measure 1-3/8" thick and 3" wide. The compact tractor pallet forks are available in two mounting type's, universal skid steer loader style and John Deere OEM tractor loader quick attach style. The John Deere compact tractor pallet forks are compatible with the following John Deere loaders, D120, H120, 210, 200X, 200CX, H130, 300, D160, H160, H165, 300X, 300CX, 305, 410, 419, 420, 430 & 440.
