[www.whitemountainscience.org/workshops](http://www.whitemountainscience.org/workshops)

**Cost:** \$18

**Duration:** 90 Minutes

**When:** 3:30pm-5:00pm @ WMSI

**Pick your date:** April 8<sup>th</sup>, 16<sup>th</sup> and May 7<sup>th</sup>

**Workshop Cap:** 8 Participants

“Virtual Reality has nothing on this!” Using the MaKeyMaKey Inventors kit, and some regular household items, participants will create a game world which they can actually step into.

During our Acrobatic Assembly workshops, participants will enjoy designing, creating, and assembling their very own “real-space” game world. Using household supplies, participants will be able to create intellectual and most importantly, physical challenges which will translate directly into the virtual world!

Our objective with this course series is to improve Project Development Skills within the participants. We will be focusing on Big Picture Concept Creation, Rapid Iteration, Problem Solving and Team Building
