Since 2008, Green Drinks has been a casual meeting of green-aware individuals for the betterment of Chattanooga and abroad.

Green Drinks is an international program that holds monthly meetings in cities all over the world, meetings at which people from all areas of business, academia, government, and non-government mingle. There are no specific pre-requisites for attendees beyond a firm awareness of our need for environmental sustainability.

Sponsoring Green Drinks provides local businesses with an opportunity to highlight their company to other local businesses, contractors, developers, architects and the general public.
