Driving gives most of us the freedom to go anywhere, at anytime. Freedom to do the simple, but necessary things…like a stop at the pharmacy…a visit to a doctor …a trip to the grocery store.

But Marge, like some people her age, can’t drive anymore. She gave up the keys. But she could use a lift.

If you have a couple hours a week, or even a couple hours a month, call us.

Can you give her a lift?

TO VOLUNTEER CALL LIFESPAN

Volunteer Drivers are Key. Give a Lift!
Can you give a lift?

YOU HOLD THE KEY.

Volunteer drivers are the KEY to independence and safety for our older neighbors who are no longer able to drive. When you give a ride to a medical appointment, physical therapy or to the pharmacy, you are helping your neighbors live happier, healthier lives in their own homes.

VOLUNTEER DRIVERS:

- Select a volunteer transportation provider
- Choose a geographic area
- Set their own hours
- Are eligible for supplemental accident and liability insurance coverage
- Receive special training
- May be eligible for partial mileage reimbursement

Volunteer drivers GET A LIFT from GIVING A LIFT!

Supported by United Way Community Fund.
