Caregiver Simulation
An interactive caregiver simulation experience for groups of 50-75 participants. What better way to understand caregivers, than to spend a few hours in their shoes. This active simulation allows participants to experience a fraction of the challenges caregivers face, day in and day out. Each participant is assigned a role, tasks, dilemmas and opportunities to navigate throughout the simulation. We believe that this experience can develop empathy for caregivers, care receivers and agencies who are involved along the way.
REST

Education and support for those providing respite for caregivers.

*Companion Training:* The 8-hour REST Companion course helps to prepare paid and unpaid workers at becoming effective at providing quality respite care to support caregivers who are caring for people with disabilities and health care needs.

*REST Essentials:* A 4-hour program that prepares volunteers or paid respite workers to provide respite in a supervised group setting such as adult day programs or drop off respite programs.

*Train-the-Trainer:* The Train-the-Trainer course prepares individuals to conduct respite training, equipping REST companions to provide respite services.
