Collaborating with other organizations to better serve older adults and caregivers is one of our organizational values! People are surprised to learn that almost one-third of our annual revenue is allocated to partnering organizations and subcontractors so that we can expand our reach both locally and throughout New York State.

In this edition of our annual report, we’ve highlighted our partnerships because they are far-reaching and diverse. I want to give a couple examples of how our partnership with the University of Rochester brings so much value to Lifespan and our clients.

UR’s Finger Lakes Geriatric Education Center, under the leadership of Dr. Tom Caprio, has been instrumental in our ability to revamp and offer our 80-hour, online, noncredit Gerontology Certificate course. In addition to reviewing the course outline and providing feedback, Dr. Caprio teaches a class and has helped us recruit UR Medical Center doctors and others as class instructors. One hundred people, professionals and older adults alike, took the course in 2023. Then, we turned around and asked Dr. Caprio for another favor — his assistance launching a new ten-class certificate course in elder abuse, a unique opportunity for professionals to learn more about the complex dynamics of elder abuse and financial exploitation.

I must also give a shout-out of thanks to the University of Rochester’s Outpatient Pharmacy clinic for coordinating with us to provide almost 700 COVID and flu vaccinations for hard-to-reach older adult residents in 2023/24. With UR, we brought vaccination clinics to more than 25 locations.

Lifespan seeks to collaborate when doing so enables us to better serve our clients — those who live in Monroe County and beyond. Throughout this report you will find examples of the hard work and dedication of both our partners and our almost 200 staff members.

Thank you for your support of Lifespan’s mission to help older adults take on both the challenges and opportunities of our longer lives.

Ann Marie Cook
President/CEO
Knowing Rochester has the second highest older adult poverty rate in the state, we sought and won funding to expand our outreach and benefits application assistance for older adults. Our goal is to help at least 500 people enroll in benefits like SNAP and Medicare Low Income Subsidy to increase their ability to make ends meet.

Our partners in this work include the Prayer House Church of God by Faith which serves residents in the 14605-zip code, the Cabrini Parish, comprised of St. Michael’s, Annunciation and Corpus Christi, Senior Expressions, a nonprofit with a focus on health care and mental health services for older adults impacted by isolation and loneliness, Rainbow Seniors Roc and the Deaf Senior Services Coalition.

**Here2There**

**Your connection to routes and rides — Here2There.help**

Here2There.help is designed to help people of any age locate transportation options matched with their needs. Those options may include public transportation, taxi and specialized services like wheelchair or door-to-door. Here2There.help is a partnership between Livingston, Monroe and Ontario counties and Lifespan of Greater Rochester.

**ROC Respite — gives caregivers some free time**

We launched ROC Respite, a free drop-in center for older adults with mild memory loss or another illness which makes it difficult for them to stay home alone. We provide fun and engaging activities in a safe space. Respite gives caregivers free time to grocery shop, meet a friend, or take a walk. It’s available every Tuesday through our partner, the Phillis Wheatley Library.

**Expanding Financial Management Assistance**

Under a grant from the New York State Office for the Aging, our Financial Management service which provides in-home help with bill paying and budgeting tasks, is partnering with the Center for Elder Law and Justice, located in Buffalo, to expand this service to five western New York counties.
New food pantry downtown
Too many older adults are living in poverty and with food prices stubbornly high, Lifespan partnered with Foodlink to open a new food pantry within our downtown older adult café in Sibley Square. Foodlink also provides a teaching kitchen at our Lily Café at the Maplewood YMCA.

More shots in arms — protection against flu and COVID
Older adults are more susceptible to serious illnesses from flu and COVID. Under funding from the National Council on Aging, we held vaccine clinics all over Monroe County. Thanks to our partner, the University of Rochester Outpatient Pharmacy, we vaccinated 694 people 60 and older.

More educational opportunities
Thanks to our partnership with the University of Rochester’s Geriatric Education Center and Dr. Tom Caprio, professor of medicine/geriatrics, Lifespan offers an 80-hour, non-credit, online Gerontology Certificate course once a week from September to May.

“Wonderful program. Loved that it expanded my knowledge base and gave me CEUs!”

One hundred people took the course. Lifespan’s new Elder Abuse Prevention Certificate course is also offered in partnership with Dr. Caprio and the Finger Lakes Geriatric Education Center at the University of Rochester.

Learn more about volunteering: www.lifespanrochester.org
Expanding access to socialization and life-long learning

Thanks to our partnership with the Jewish Community Center, 420 older JCC members took part in 591 classes/activities, and 95% reported an increase in enrichment and social opportunities. “I feel I have a second family by being a member of the JCC and Lifespan as well. Classes have been great, and Lifespan offerings have expanded my social life. I know I’m stronger in many ways.”

Our longtime partnership with the Maplewood YMCA means 94% of participants at our Lily Café at the Maplewood Y reported an increase in overall well-being.

“The staff is AWESOME. I love all the programs/classes. The Lily Café is family, social, friendly, kind, caring oriented. I ask that you keep the Lily Café at the Maplewood YMCA. It makes a big difference in my daily life.”

Fighting elder abuse throughout New York State

Lifespan’s Enhanced Multidisciplinary Teams (E-MDTs), provide a coordinated response to elder abuse cases throughout New York State. E-MDTs are comprised of professionals from various disciplines within each county whose primary focus is to intervene and prevent abuse of older adults including financial exploitation, physical abuse, sexual abuse, neglect by other and/or emotional abuse. One of our professional partners is Dr. E.J. Santos, a geriatric psychiatrist from the University of Rochester and clinical chief, Division of Geriatric Mental Health & Memory Care. Dr. Santos provides mental health services and capacity evaluations for the E-MDTs.

Improving resident relationships in long-term care

We partnered with the Cornell Institute for Translational Research on Aging to provide a course for skilled nursing facilities titled, “Improving Resident Relationships in Long Term Care.” This is an evidence-based intervention which empowers staff to help prevent aggressive incidents, create a safer community for residents and reduce staff stress.

We thank Dr. Bob McCann and Mark Cronin of Accountable Health Partners for choosing to partner with Lifespan in a ground-breaking integration of aging services and healthcare. Their support of our work has enabled Lifespan to win additional funding for our Community Care Connections service which helps patients navigate medical and social care.
Other Enhancements

It’s new and people love them!
Our pop-up Memory Cafés

In January we launched pop-up Memory Cafés for people with memory loss and their care partners to gather for a meal and entertainment. This is an opportunity to meet others walking a similar path and take advantage of a no-cost activity! We love feedback! This is from a Memory Café participant:

“Today, my mom and I attended the Memory Cafe activity at the Henrietta library. There are not enough words to express my sincere gratitude!”

Providing new health and wellness classes

We were certified to provide two additional health and wellness classes, “Stay Active and Independent for Life” incorporates aerobics, balance, and upper and lower body strength. Assessments gauge participants’ progress. “Otago” is a class for people with higher balance challenges/mobility needs. Balance and strength exercises are guided by Lifespan’s exercise instructor and a volunteer physical therapist.

Longevity Focus, a 2023 report from Lifespan, highlights the demographic changes occurring in both our country and in Monroe County.

- We are in the middle of a demographic transformation like no other. Today, about 58 million Americans are 65 or older. That number increases to 72 million in just six years.
- In Monroe County, 25% of residents are 60+ for the first time in history.
- The county’s population of older people is aging-in-place in suburban towns. The percentage of people 60 and older in many towns is over 25%.
- In New York State, the fastest increase in the 65+ population over the past decade occurred in the City of Rochester (+64%) while the under 65 population decreased by 6%.

Some of the issues highlighted in our report about the changing demographics include:

- Ageism, which is prevalent and too often acceptable.
- Family caregivers provider 80% of long-term care in NYS.
- Recognition of elder abuse. Only one in 24 instances is ever reported to authorities.
- The importance of preventing illness and injury among older adults. 40% of older adults are obese.
- Supportive housing for older adults is plentiful and too often expensive.
- The critical shortage of caregivers in nursing homes.
- Older adults are at greater risk of social isolation, especially those elders with lower incomes and resources.
- Older adults are aging in car-dependent suburban and rural locations where transportation and pedestrian infrastructure is not adequate.

Lifespan offers more than 30 services which track to just six organizational outcomes. We focus on:

1. Increasing financial security.
2. Reducing the risk of elder abuse.
3. Improving caregiving.
4. Maintaining and increasing independence and safety.
5. Increasing fulfillment.
6. Increasing options and knowledge.

The Community Care Connections service which integrates our LPN health care coordinators and social workers with medical practices, is evaluated by the New York Academy of Medicine. The service reduced unnecessary hospitalizations by 19% and unnecessary ED visits by 31%.

“Lifespan is an invaluable resource for me as a primary care physician. I can’t emphasize enough how much help has been provided by Lifespan in the care of certain patients with psycho-social and financial issues that were impacting their health and ability to access care.” Carla Peracchia, M.D.

100% of 45 students taking the Gerontology Certificate course reported increased knowledge.

“This is a course worth taking for anyone who wants to learn about aging and/or is working with older adults.”

95% of clients using our Financial Management service, which provides in-home assistance with tasks such as paying bills and budgeting, told us the service helped increase their ability to manage their finances.

“My volunteer is beyond compare! He’s helping me reduce my credit card debt to zero, and we’re almost there!”

100% of 45 students taking the Gerontology Certificate course reported increased knowledge.

“My volunteer is beyond compare! He’s helping me reduce my credit card debt to zero, and we’re almost there!”

How we measure making a difference

Our 2023/2024 service outcomes
We work to reduce caregiver stress through care management, respite and educational classes like Powerful Tools for Caregivers. “I could feel the stress lifting off me as I received answers and directions that are necessary as my brother, sister and I plan for the next stages of providing the best care for our mother.”

In 2023/24, 81% of families (122) successfully completed the four-step Future Care Planning process which means they are less at risk of experiencing a crisis. “I and my family have peace of mind now knowing our child has safeguards in place.”

The risk of elder abuse was reduced or eliminated in 74% of instances of physical or emotional, neglect or financial exploitation. In 2023, the court ordered restitution to victims of financial abuse was $723,000.

96% of clients who completed counseling in our Recovery & Wellness service (formerly Geriatric Addictions) achieved a decrease or abstinence in their use of alcohol or drugs. “Thank you for caring and support. You have helped me so much!”

98% of callers to our helpline reported an increased ability to locate and obtain needed services. “I touched base with you regarding some assistance for my sister-in-law. You kindly gave me some options, and my nephew contacted the home care agency. Our dear sister-in-law now has a companion who will be able to fill-in when I am not able to meet her needs.”

96% of clients using our Home-Safe-Home service for minor home modifications believe we have increased their ability to stay in their homes.
1,300 people attended our March 2024 event with guest speaker, Judy Collins.

“We’ve all had emergencies. We’ve all had losses. We’ve all been on the border of depression. We all run around in a hectic and busy world. We’ve all had life issues. So grab your coat and grab your hat and just direct your feet to the sunny side of the street.”

Judy Collins

Our staff members recognize excellence in their colleagues’ dedication to our “Take it On” brand promise by nominating each other for our monthly WOW! award. From the staff honored during the year, senior management votes to select our annual WOW! award winner.

Erin Uttaro, an Eldersource care manager, assisted a 76-year-old, homeless, Spanish speaking woman. Erin immediately helped with housing applications, but also advocated to have the shelter staff complete a required housing assistance screening tool for rapid housing placement, a tool which should have been completed months earlier. When Erin inquired about why it was not done, she was told it was due to the language barrier.

The shelter then attempted to discharge because DHS funding ended. The woman, they said, would have to go to a hotel using her own funds. It was a Friday. Erin went to the shelter to assist the client in reserving a hotel only to find that her Social Security payment had been stolen from her direct express card.

Without money to pay for a hotel, Erin advocated with DHS to extend her stay at the shelter until Monday. She helped the client file a police report, contact Social Security, and she made a referral to Lifespan’s elder abuse prevention team because she discovered that the client’s deceased son’s former girlfriend took the funds from client’s card using his Venmo account. Erin continued advocacy with DHS to extend the placement until the client was finally placed in a rapid rehousing program. She continued to support her client by obtaining SNAP and other benefits and helped her re-connect with a primary care provider she had not seen in five years.

Erin’s dedication to her client over six months is just one example of how she goes beyond for each of her clients.
