A free area for students to use/do something in. The bowling alley is overpriced and awful.
Movie Theater
I think the bowling alley is great, but if it was replaced, a sort of pet shelter may be beneficial. Students could go see the animals (dogs, cats, rabbits, turtles, etc.) to de-stress and even vet students could go practice appropriate skills with them. This is probably too high maintenance though..
Laser tag
Another bowling alley.
keep the alley!

Replace it with better bowling machines
As one of the many people who work with the equipment in the bowling alley, replacing/updating the equipment would help us tremendously as the lanes are slanted and the machines are a bit outdated.

Movie theater
Movie theater room? One room for a movie voted by the students and student gov. Whichever movie gets highest votes gets to be shown for lets say a week and then changed to another movie through the same voting system? Overall just having a movie theater like area would be nice.
I think moving the arcade games and pool/ping-pong tables into the bowling alley area would be cool, that way there could be a sort of designated gaming/recreation area in there and the current arcade corner could be used as another lounge space with more chairs, tables, couches, etc.
Don't replace it
Independent project workspace - work benches, tools, art supplies...
Nap center
A small theater would be perfect.
An ice rink, mini golf, or go carts.
Doesn't Matter because CTC students are paying the fees for it and we don't use it. That is why we are at CTC and not UAF.

no
I love the bowling alley. Not sure what it would be replaced with?
Skating Rink
None
Keep the bowling alley! Just fix it up, get the scores right, allow auxilery cord option for customers. It would be a good spot to go to before/after the pub. The bowling alley off airport is pretty expensive, and on campus students would be able to go to the alley whenever they are bored.

Pool tables

Laser tag
Movie theater
Study space with comfortable seating relative to the tables, appropriate lighting, and plentiful plug-ins would be one idea - the seating/table arranges in a number of campus common spaces are uncomfortable for studying. OR, a variety of campuses around the US are adding ZenZones or Stress Busting zones with places for power naps, mindfulness meditation facilitation, even biofeedback computer programs facilitated by graduate psychology or counseling students. Personally, I'd recommend if this option were done that it NOT be run by the Student Health and Counseling Center - partner with the Master's of Education counseling program and make it a win-win for the campus and

new bowling alley
Movie lounge
Home movie theater
VR Arcade OR Bolling Alley
I would like to see the money for that project going towards enhancing things we already have available to us as students, rather than something new. I think we could have more events and concerts, better food served, more tutors hired in the departments, more microwaves for use in the wood center, etc. Why not work with what we already have?

Keep it. Not worth the money to replace it
A better bowling alley
nope
N/A
A roller skating rink!!!
No
None
Movie theater
Keep the bowling alley
I wish you could replace it with something that could help people with depression. Bowling alley is dark gross and not good for people with depression. I think it would be better if it was like the Nook but targeted towards weekly activities / could be like the pub for people under 21. Along with that it could be a good place to study that's not depressing like everywhere else's on campus. Knock down the wall
Keep the tech open for bowling for scores and why is it only closed on week days
karaoke lounge
I like the bowling alley. However, if you are going to replace it with something, mini golf/glow putt could

Would we actually be saving money by doing this, or would the presumably expensive replacement space go ignored like so many other expensive things on campus?

why would you do that? you're spending more money that could be put towards things the school actually needs or just helping students (not honors students) with tuition. The bowling ally is fine, it's
