#### WRITE-INS

Help reduce the cost of the meal plan and eliminate obligation to get a meal plan for upperclassmen. Also, try to advocate better quality food for students.
Reduce parking decals and student tuition.
I'm not too sure because I don't even know what you guys are doing or have been doing.
I would like to see ASUAF partner and work more with organizations of campus to better student life. I would love to see ASUAF start a scholarship or fund to help the on campus food pantry.
Promote social and environmental activism.
Please remember there are graduate students on campus!!! You only give options for undergraduates on all your surveys.
Strive to allow students who have a CCW permit to carry on campus in order to protect themselves. Push for reductions in UAF spending during this time of budget crisis.
Dissolve
Show the Movie "Real Genius" instead of Rocky horror picture show.
I really do not see the student government very often. Even in their offices.
Stop being a bunch of flaming leftist.
More microwaves around campus. Could use a public-use microwave in Reichardt.
Spend less money on dumb stuff like concert board.
Environmental activities; reducing the campus's impact in greenhouse gas emissions, waste, driving of cars.
Do less, not more. I am sick of paying the student government fee every semester and seeing nothing from it except posters saying "Please help us spend this money, it's burning a hole in our pockets and if we don't spend it, we'll get less funding for this stuff next semester".
Let me keep my damn money.
Air conditioning in the dorms
I wish there was a way to fix the transphobic people tainting the office because it makes it hard to actually go in there

<p>Become more eco-centric. I know there are good intentions in regards to composting, recycling, gardening, and other areas pertaining to sustainability, but these could be vastly improved. I also believe that improvements within these realms could increase the quality of life on campus</p>
<p>More Travel Fund</p>
<p>try to make some of the charges not mandatory. even if it means losing some campus activities. A lot of the charges seem ridiculous like I never attend sports games and wouldn't want too, but am charged fees relating to sports anyway</p>
<p>I would like to have more information on the candidates as well as more opportunities to know more about ASUAF.</p>
<p>Being only my second semester, non traditional student and a mother of 4 children I haven't have the luxury to even take advantage of any of the "Extras" that the student government are apart of. I wish them ALL good luck in the upcoming election!</p>
<p>I'd like to see ASUAF do more in all of these areas. I think senate outreach is probably most important and all of these options cover that.</p>
<p>Stop taking so much god damn money. Why the hell do you need an almost 400k operating budget?</p>
<p>Work to improve recycling at UAF (ex: put more plastic bottle recycling bins around campus, next to the aluminum ones).</p>
<p>Work towards lowering Chartwells prices for healthy options. Offer more fruit and vegetable options at the cache and in the Murie Cafe.</p>
<p>Waste less money</p>
<p>Improve the coffee quality! I am dying for some dark roast Kopi Lewak!</p>
<p>I literally have no idea what ASUAF does</p>
<p>I would more transparency on the funding and spending of resources by ASUAF. Specifically, I would like to know what happens to the \$40+ that is charged to each member of the student body per semester.</p>
<p>Develop a code of ethics, stop allowing their environment to continue to be a stamp on a resume rather than actual leadership experience, mandate safezone, qpr, greendot and racial equity training, acknowledge truly hardworking individuals rather than the most likeable senators. Do the jobs that they are sworn in to perform rather than promoting their personal views and bias, serve students all students.</p>
<p>I'd like to see the student government do more to advise students on how to make the most of their time in college. We should be here not for a grade, but to increase our understanding. I think students need more people to push them to make smart choices and since the student government is not a grand, governing body, I think advocacy in terms of pushing students to do what is best for themselves would be the most useful function to come from them. For example, maybe the student government could help publicize volunteer opportunities in the community. That looks better on a resume than a high GPA.</p>
<p>Improve the Wood Center Food Pantry and promote it more and get more students to recognize it exists.</p>
<p>Let us opt out of fees. I am a graduate student and I never use the ASUAF services, so I feel extorted.</p>
<p>Be more open and willing to meet students. I feel like many ASUAF people are not very open or friendly. I believe there can be a lot of improvement for outreach towards students, not just student life involvement, but actually getting to know the body of students you're representing.</p>
<p>Be more open to GOD and His Bible and not to be ashamed of our Blessed Creator, the LORD Jesus Christ! St. John 3:16-21</p>
<p>Have bands/musicians come to UAF</p>
<p>I would like to see the ASUAF student government work as a professional and united front who are willing to support, advocate, and represent ALL UAF students. I would also like to see ASUAF student government practice what has been preached about student involvement and be a part of campus life outside of the ASUAF Office or ASUAF sponsored events.</p>

I would like for ASUAF to help secure better ways to monitor the meal plans on campus. It can be really difficult for students to budget and it wouldn't be hard for UAF to set up an automated meal plan budget reminder email for each student related to their expenses. I think just a simple weekly reminder would help improve their spending habits. Or find a way to refund the block or munch (like a credit card) in case the cashier swiped wrong.

The coffee needs to be made a little bit stronger than it is.

Work with administration in order to better facilitate credit hour enrollment in order to better drive admission for more diversity of courses on campus

Reduce the silly fees.

I would like to see more outreach targeted towards nontraditional students and students that live off-campus. I think that, often time, these groups of students are neglected in ASUAF activities. More events that are kid friendly, on weekends, at other location (besides on campus), etc. would be enjoyable.

Start trying to do MORE with the funding that you have. You won't be able to spend a deficit away.

Allow concealed carry on campus.

**Write-ins: What other types of projects would you support spending the ASUAF Trust Fund on?**

N/A
Keeping UAF as clean as possible
Better kitchens and microwaves around campus
Free food
Build better kitchens on campus for students to use.
Distance delivery classes and more opportunity for classes we need (Example, the Econ classes are now only online because of budget cuts, we should make them available for distance since Econ is already a tough subject)
Cleaning the water system so that the campus has clean water not polluted with toxic substances and passes the clean water analysis report, for once. Students should have access to clean water.
I am strongly opposed to using the funds for sustainability projects, seeing how there is already a separate sustainability fee charged to students. If you want more money for sustainability projects, ask the students if they want to increase that particular fee. If ASUAF funnels the funds into projects that are supposed to be funded by their own fee, I do not see the point in having both fees charged.
Just more scholarship opportunities for students.
Create more student positions.
Update the pub!
An initiative to destroy the administration and establish ASUAF as the supreme governing authority.
Scholarships for housing
Activities including students children/family
To give the student clubs money
Campus events
Bring up speakers to provide an interesting intellectual viewpoint.
Not renovating your office. Being more conscious of student needs instead of your own.
Fix the arctic java bathrooms PLS. can we have facilities that work/dont spray you with pee water before we focus on doing club/athletic awards?
Getting better food options
Paying professors
Support for the sciences, including funding and research. Focus on improving and maintaining medical care.
A "UAF" sculpture that would serve as "the place" to take UAF pictures. The entry sign with the digital thermometer normally takes this role, but something in Constitution Park might be nice.
Fun activities for the students.
Fun activities and programs and ensuring the coffee and free printing continue
invest a large portion and add the interest to the ASUAF budget each year.
Activities that help students succeed in college.
More club support, more open-forum interactions with student government
hfgyuyfiuyfgiygioug
Helping the rycyclin be more organize, readily picked up and promoted
Lowering tuition or extending student housing force out dates without extra payments. We have to leave at the end of finals week, it's crazy, and we shouldn't have to pay extra and move to stay an extra week or two when we pay so much already.
Solar thermal to heat the patty

Lots and Lots of microwaves. Tired of eating cold soup.
Campus facilities maintenance.
Networking events between colleges
Air Conditioning in the dorms
I have no idea what the trust fund is...
To improve or revamp Title IX.
Recycling is my biggest concern/interest.
Help with planning upcoming events
Improve the facilities such as Wood Center. Provide more UAF gear for students.
NEW DRYERS - 1/2 at cutler don't work...the other half take forever to dry a load
Not related to the trust fund, but I think it would really be a good idea to advertise a lost of available student clubs in several places across campus, along with better advertising for big events because things happen and people find out about them by usually just randomly wandering in.
sustainability
Advocating for students rights, and pointedly the ability of every American citizen to protect themselves from bodily harm with the use of firearms on campus. Gun free zones are the number one target of mass shooters, and as more and more schools across the nation adopt gun friendly regulations their rates of violent crimes, and sex crimes, go way down.
events that bring the community together more
Student supply aids such as laptops, books, writing utensils, cold weather coats, etc. For qualified students who meet financial pre requisites.
Idk man
I personally have never been accepted for a scholarship, one day I hope I can. I'm not sure why I haven't gotten any. So the whole scholarship is important for people it does actually help.
Updating kitchens in cutler, student movie theater
Clean drinking water yo all those fountains taste like straight up metal
Diversity training for ASUAF senators and officers (things like green dot, safe space, trans 101, etc)
On the topic of renovations, you could look into making buildings more wheelchair accessible, or at least put money towards fixing the supposedly wheelchair accessible buildings that have broken facilities, like Constitution Hall.
Renovating the bowling alley.
Improving functions such as the bath rooms in Moore Hall. The bath tubs on the women's floor do not plug except the 4th floor one.
Improvements that would allow students a higher level of living on campu
Give us back our ash trays please.
Create a research grant similar to URSA.
scholarships.
Anything to improve safety on campus
Improving campus life and spending money where it's actually needed, not on something like repainting reichardt. The building looked fine.
Idk, but only spend the interest income so that it can be a sustainable fund.
CLUB FUNDING, TRAVEL FUNDING PLZ
I would put scholarships as the top priority. I wouldn't have been able to get a BS if scholarships had not been available and with the rising cost of education this is even more strongly needed.
Just spending the money on events that would bring the students, faculty, and staff more together in the upcoming future.
Helping out clubs on traveling
I would fund the food pantry & free store more, & advertise to get the word out to all types of students in need.
Concrete Canoe Team
Bring back archery!
Research travel grants,
Scholarships

Club funding - Academic club participation goes a long way in building up its participants resume. Students who go above and beyond their class requirements should have these luxuries afforded to them since they are acting as model students with the University's name behind them.
hookers and blow
Art dept. and supplies for them.
Tutors who have time and experience. Training for math tutors, the instructor's teach different then what the tutors teach. Most times it ends up more confusing. There should be someone that students can bring there concerns too. More tutors, more times available.
Campus events, Concerts, fairs, Winter/Springfest, etc.
Recycling for cutler!!!
Better food options on campus
Springfest Friday off.
STUDENT EVENTS
Mostly on the sustainability projects. Also, it'd be nice if you could upgrade the Natural Resources department, some of the equipment is old or in short supply.
Sports
Greater freedom to preach the Gospel of Jesus Christ without harassment!
more water bottle fill up stations in the dorms.
I don't know if this requires use of the Trust Fund, but I get the sense that a lot of things happen "through connections" on this campus. There was a "lunch with students" with two recent speakers on campus that I never saw signs for and later I heard students talk about "being invited" to these. It'd be nice if ASUAF decision-making and events related to students (such as the leadership activities) were advertised in a way that was more democratic.
Make events such that there is more student involvement in government.
Advocacy on student issues--sending students to BOR and state legislature to advocate.
We really need more scholarships.
ASUAF Trust Fund's set aside an predetermined amount of funds for Scholarships and student activity whereas the rest or bulk of the fund should be invested at the very least indexed to the market in order to fund future capital projects.
Creating options for on-campus students to do. Not bowling/games centre but somewhere that students can get together and dance/hang out. Like a club or pub but for those underage or not wanting to drink. Fairbanks does not have easily accessible activities during the dead of winter and it creates a sad environment.
Make a downhill ski team
Investment in renewable resources and ethically sustainable interests.
Movie theater on campus
Merit Scholarships with preference for students in leadership positions, buying cookware for the dorms, quality of life issues.
Projects geared toward increasing the self-reliance or productivity of the University, things that make money rather than spend it.
Investing activities
Updating the bowling alley and ASUAF office.
More recycling programs; Ban plastic bags on campus

They should make the bowling alley / asuaf a bigger community study center like the nook with possibility of hosting live events and activities. I think mental health is neglected at uaf. People with depression and bipolar disorder have lots of issues getting out and getting involved in campus involvement. Fairbanks already has limited things to do and out of state kids and kids without cars have many barriers have it prettt bad.

As an out of state kid I came up and didn't realize how many Alaskans attend uaf. So most already had friends and it was more difficult for me to find friends. I joined asuaf but like many things at uaf there wasn't student involvement because they just weren't as interesting or people were busy. I wish you guys maybe could hire a consultant or see what other schools are doing. I know we can do better.

Maybe you guys could develop the community garden further. I know it's only good for the summer but we need to find activities that can help us all year round. For example, having a walking or running club would be awesome. Maybe going and taking aurora photographs or hosting baking classes. If you guys utilized all of the space on the bottom floor you could make a badass student center.

Increased security around campus and CTC and expansion of the health center to include a dental clinic.

Paying senates

Idk

I would like to see it spent on getting clubs traveling and representing UAF.
