

Producers in the Irrigation Assessment Program volunteer to have their center pivot or subsurface drip irrigation system evaluated by HPWD staff. The following data was collected during the 2019 growing season from **633 wells** at **132 irrigation system sites**. If you would like to sign up for the program, contact the HPWD office.

Average Crop Water Use

Average Yield

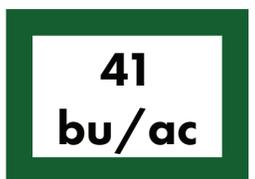

Corn

Cotton

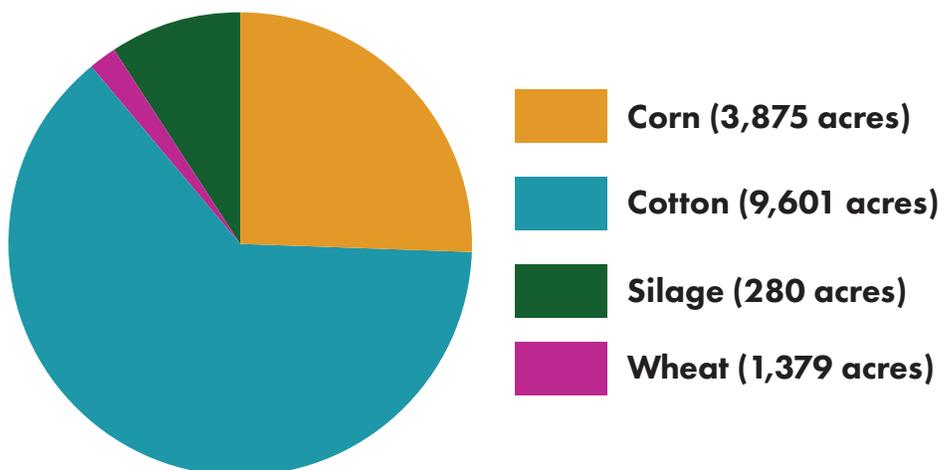

Silage

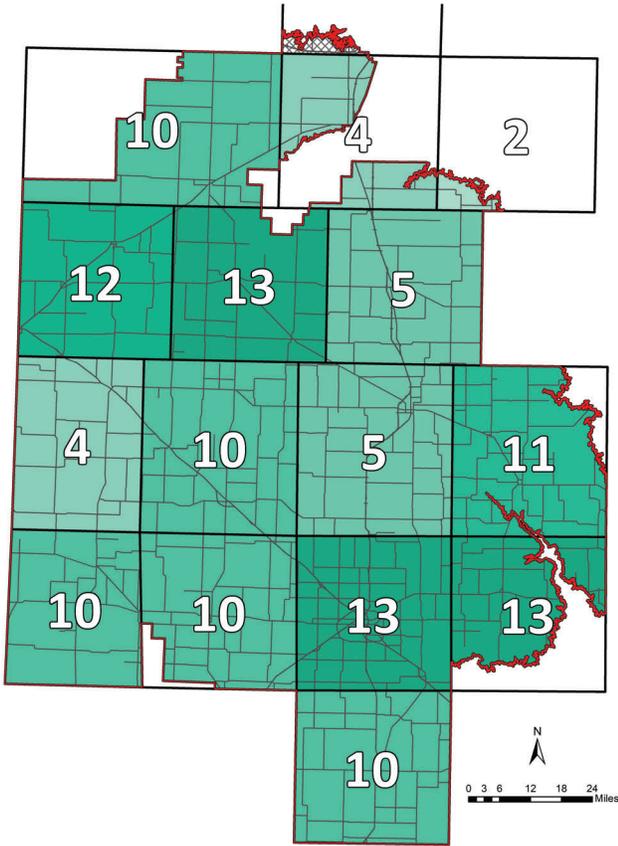

Wheat

Acres in Program

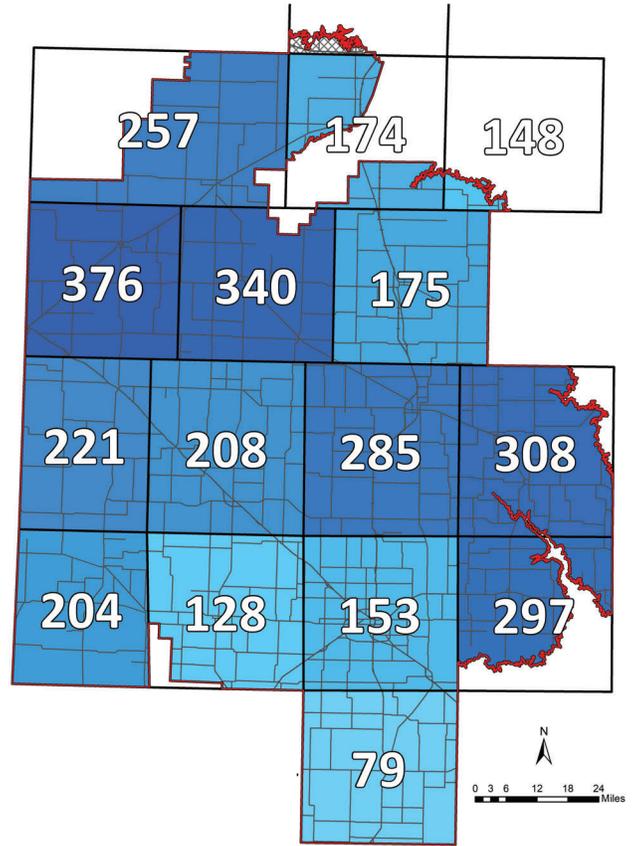

See back page for more details.

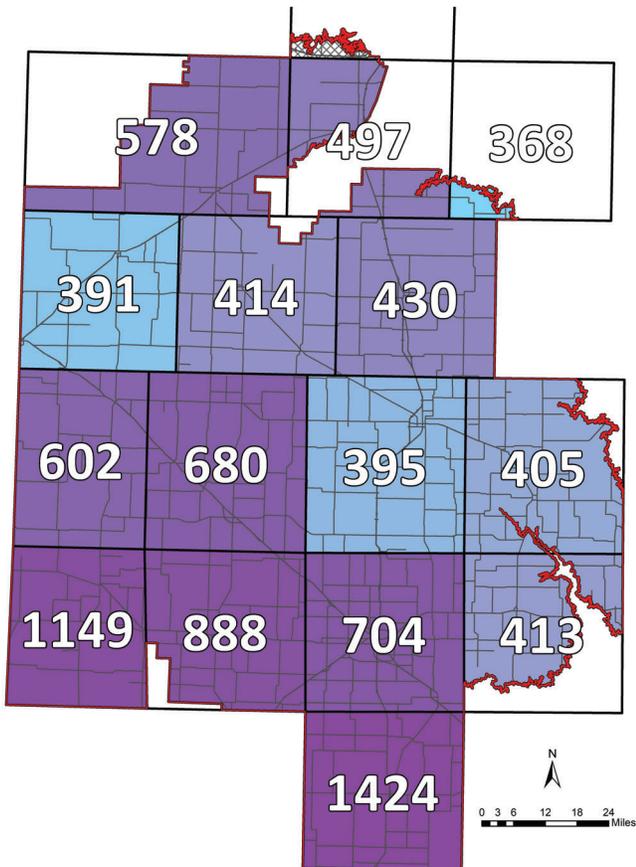

Total Site Count: 132

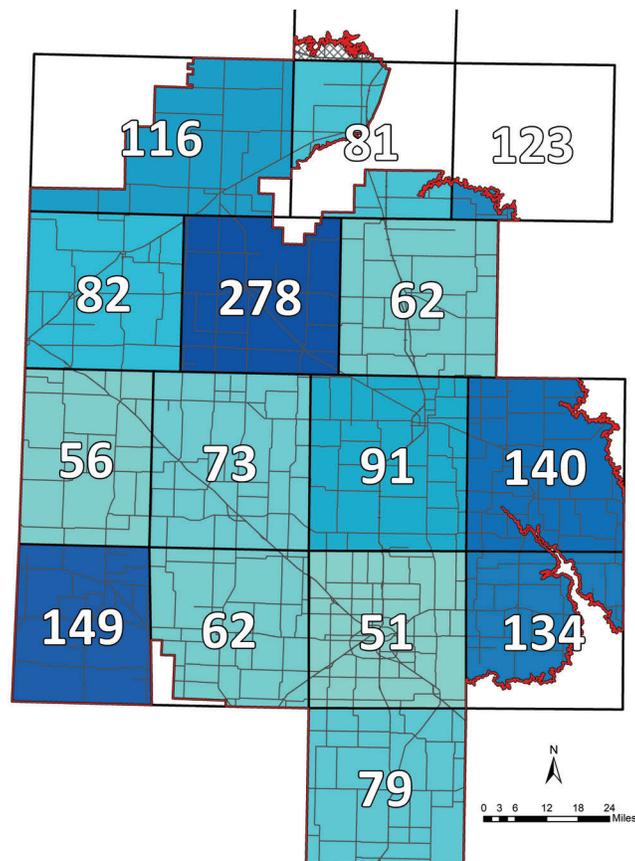

Average Depth to Water (feet)

Average Total Dissolved Solids (mg/L)

Average Flow Rate of Wells (gpm)

This data is based on information collected by the High Plains Underground Water Conservation District at Irrigation Assessment Program sites during the 2019 growing season.
