Ms. Elizabeth Davy  
GFWC-WI Special Projects – EMSC Chairman  
W359 N5920 Brown St., Suite 102  
Oconomowoc, WI 53066

Dear Ms. Davy:

I wanted to thank you and GFWC for your willingness and enthusiasm in tackling such a noteworthy project of providing funding in support of Wisconsin ambulance services in ensuring that there are pediatric “jump kits” in every ambulance!

In the EMS business it goes without saying that when the “pager” alarms and the ambulance is requested to respond to a call involving a young child - staff cringe! By providing a pediatric jump bag, with all of the appropriate sized equipment to assist you, - your tensions are eased a bit knowing that you have all of the tools necessary within your kit to try and make a difference in those kids lives!

Much of the supplies within the kits have been used quite regularly and are making a difference in helping us facilitate more positive outcomes to the sick and injured pediatric populations.

Thanks again.

Sincerely,

Joe Walsh, Manager  
North Memorial Ambulance Service  
Wisconsin Region
