

Renewable Energy & Cleantech Services

Transforming the Way You Think About Energy

The time to invest in renewable energy is now.

Corporate commitments to renewable energy have more than doubled from 1.18GW in 2014 to 3.21GW in 2015.¹

Green power is projected to be 60% of all energy investment by 2040, outpacing brown power.²

We've been there...

We've facilitated over 75 renewable energy projects worldwide, adding 1.2 gigawatts of clean power to the grid.

Schneider Electric evaluated, managed, and facilitated more than 20% of all corporate Power Purchase Agreements in the U.S. and Mexico in 2015.

...And we're ready to help you.

Portfolio Solutions

Start your cleantech and renewable journey here.

Our holistic approach begins at the strategic planning stage identifying, qualifying, and prioritizing opportunities that map to your specific portfolio and business requirements.

Market Intelligence

Stay up-to-date on the latest Cleantech and renewable opportunities and regulations around the globe.

Receive regular updates on newly proposed or revised compliance standards, mandates, policy guidelines and more affecting cleantech and renewable markets around the globe.

Access the **New Energy Opportunities (NEO) Network™**, a web-based platform powered by Schneider Electric, which brings together companies, leading solution providers, and affiliates to accelerate and facilitate new energy opportunities and share best practices.

Project Solutions

Maximize the value of your cleantech and renewable energy projects.

As your experienced, unbiased, third-party advisor, we'll manage the intricate procurement process to ensure execution of right-sized projects with reputable vendors at competitive prices.

Following contract execution, we'll provide ongoing visibility and reporting of project performance to ensure maximum efficiency and avoid surprises.

Environmental Trading

Explore the latest developments in carbon markets and how to reap full benefits of RECs.

Our comprehensive environmental trading services maximizes project value and provides your organization with expertise and hands-off management.

Accelerate your renewable energy and cleantech initiatives today.
