

With Lifted Hands

C3LA Music 2017

Every heart will make room
For Your glory to consume
All our lives, all our ways
We will worship Your great name

With lifted hands I worship You
This broken heart I give to You
No my pain won't hold me here
I will worship through my fears

All I have in this world
Can't compare to Your love
And the wonder of Your grace
It will lead us in our faith

With lifted hands I worship You
This broken heart I give to You
No my pain won't hold me here
I will worship through my fears
With lifted hands I worship You
This broken heart I give to You
No my pain won't hold me here
I will worship through my fears

You beat death, you give life
Where there's darkness, you are light
I was lost in your love I'm found
Set my feet on solid ground

With lifted hands I worship You
This broken heart I give to You
No my pain won't hold me here
I will worship through my fears
With lifted hands I worship You
This broken heart I give to You
No my pain won't hold me here
I will worship through my fears
