

A600

PRODUCT INFORMATION

The A600 is the new premium class of coffee machines, dramatically improving efficiency in professional use. The eight-inch color touchscreen with intuitive menu prompts and images entices customers to pick their espresso beverage of choice. Achieve additional sales through the easy placement of advertising messages and custom images on the display.

A milk processing system with temperature control delivers customized “barista” milk foam at exactly the right consistency - hot or cold, creamy or firm - in just seconds with the touch of a button. The double powder dosing system allows the use of two different powders (chocolates, chai, etc) and the optional flavor station with up to three flavored syrups enables the preparation of numerous types of drink specialties. The advanced integrated cleaning process reduces efforts to a minimum and provides clean, safe handling.

The A600 is the perfect solution for restaurants, convenience stores, quick-serve restaurants, schools, offices, and much more.

FEATURES

- Intuitive touchscreen navigation on eight-inch panel
- 4 operating modes for efficient menu configuration
- Programmable milk quality and temperature settings for each product
- Variable foam consistency with hot or cold foam
- 2 x 2.5 lb bean hopper, lockable
- Milk container (1 G) with integrated temperature sensor and docking system
- Maximum energy efficiency
- Integrated cleaning process
- M2M/telemetry (coming soon)
- Professional installation and 1 year scheduled maintenance program available
- 12 months parts and labor warranty
