A NOTE FROM OUR CEO

This is the first of what I hope to be many annual reports I will have the privilege of presenting on behalf of the Petey Greene Program. I began the journey of leading the Petey Greene Program in December of 2022, and I am now more convinced than ever that this organization sits in a truly exciting position in the world of correctional and reentry education. Adult education in the carceral setting, and for those returning home from our prisons and jails, is now taking center stage as society better understands the importance of education and literacy in guiding people to career pathways of opportunity and success. The increased national demand for talented labor, the need for basic math, reading, and digital literacy skills for career success, and the understanding that for adult learners, education can hold the key to their future, coalesce to place the Petey Greene Program at the forefront of change in our country.

In 2022, as the impacts of the global pandemic began to subside, educational programming reopened behind the walls of our prisons and jails, and our tutors and staff were able to return for more in-person programming. During the pandemic, the Petey Greene Program recognized the necessity of not only supporting students inside the walls but also creating a continuum of educational support beyond the walls for those returning home. While we continue to face educational and correctional staffing shortages nationally, the Petey Greene Program has played a crucial role in providing additional support to correctional and reentry educators, universities, and justice-related programming. In addition, as the Second Chance Pell Program begins its next phase of supporting students seeking a post-secondary degree or occupational credential, the Petey Greene Program, through our growing College Bridge Program, is well-positioned to form new partnerships and build on the momentum across the country.

All of the great work being done by the Petey Greene Program staff, Board, tutors, partners, volunteers, and students would not be possible without the generous support of all the dedicated donors in our Petey Greene Program family. In the coming year we will begin our new Strategic Plan for 2024-2027, and I look forward to helping the Petey Greene Program grow as we work to change the face of correctional and reentry education across the country.

-JEFFREY ABRAMOWITZ,
CEO OF THE PETEY GREENE PROGRAM

THE PETEY GREENE PROGRAM AT A GLANCE

Since its founding, the PGP has tutored **more than 16,000 students** at over **120 tutoring sites** in correctional facilities and reentry programs.

We've placed more than 3,500 volunteer tutors and recruited from more than **40 partner universities in seven states and the District of Columbia.**

OUR MISSION

The Petey Greene Program supports the academic goals of incarcerated and formerly incarcerated people through high-quality volunteer tutoring programs, while educating volunteers on the injustice manifest in our carceral system.

OUR VISION

We envision a world in which all incarcerated people have access to high-quality academic programs, and we strive to inspire our alumni - both students and tutors - to become advocates and take on leadership roles that reimagine the criminal legal system.

2022 HIGHLIGHTS

THE JUSTICE EDUCATION SERIES

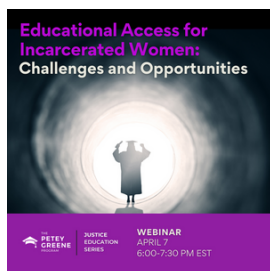

The Justice Education Series is designed to achieve our mission of developing justice-oriented citizens and to raise volunteers' and public awareness of the policies and practices that create mass incarceration. We prioritize the voices and expertise of formerly incarcerated people and other system-impacted people in these conversations. Since the series' inception, nearly 70% of presenters have been system-impacted people. From these conversations and our other justice-oriented leadership programming, we have developed a reputation for helping our audience expand their knowledge about incarceration, reentry, and education as one pathway to freedom and thriving. Over 90% of those who attend the webinars report that these events help them understand how to advocate for systemic change.

In 2022, we hosted three Justice Education Series webinars:

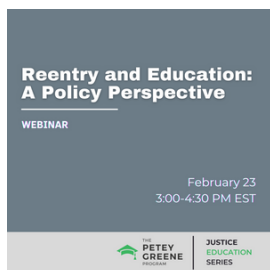

WHAT IS EDUCATIONAL JUSTICE?

Our panelists helped us consider what educational justice (and injustice) look like, the relationship between mass incarceration, the carceral state, and educational justice, and how and why prison education programs can pursue educational justice.

EDUCATIONAL ACCESS FOR INCARCERATED WOMEN: CHALLENGES AND OPPORTUNITIES

This conversation among formerly incarcerated women and education administrators helped us understand why access to vocational and educational programs for incarcerated women are lacking and how we can advocate for greater access.

REENTRY AND EDUCATION: A POLICY PERSPECTIVE

Our panelists conferred on policy initiatives like Banning the Box, standardization of educational programming, housing support, counseling, and financial aid for incarcerated individuals and helped us understand how we can advocate for education policy change.

TOTAL 2022 WEBINAR ATTENDEES: 662

2022 HIGHLIGHTS

5K RUN/WALK FOR EDUCATION JUSTICE

In October, we hosted our first annual 5K Run/Walk for Education Justice in Boston. Over 100 runners and walkers joined us, both in person and virtually, and accepted the challenge to fundraise for education justice and bring awareness to our mission. With the generosity, enthusiasm, and engagement of our supporters, we raised \$11,500 to support educational programming for currently and formerly incarcerated learners. Thank you to the sponsors, fundraisers, volunteers, runners, and walkers for making the first annual 5K Run/Walk such a success, and **we look forward to continuing the momentum on October 28, 2023!**

CORPORATE WEBINARS

Our Civic Engagement Challenge facilitates engaging conversations on injustice and inequality in the corporate setting. In 2022, Petey Greene Program staff and trustees hosted webinars with CitiBank Human Resources and Fragomen, Del Rey, Bernstein, & Loewy to educate and engage their teams about diversity, equity, and inclusion. Please contact pgp@peteygreene.org if you would like us to host a webinar or series of webinars for your team.

OUR PROGRAMMING

THE PGP COLLEGE BRIDGE PROGRAM

Our College Bridge Program made great strides in 2022. In the 2021-2022 academic year, the PGP piloted new regional college bridge programs in New Jersey and Massachusetts, while continuing to replicate and refine the Washington, D.C., program, which was first piloted with the D.C. Department of Corrections in 2022. While our first programs focused on fostering students' reading and writing skills, we began piloting College Bridge math courses to complement the writing courses.

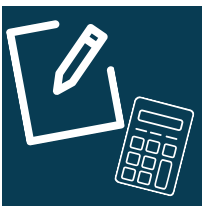

By the end of 2023, the PGP will have implemented College Bridge programming in at least seven facilities and two reentry programs across all of its regions.

In 2022, the Petey Greene Program

Taught approximately 100 College Bridge students

In 7 College Bridge Writing and Math courses

At 3 facilities across 3 PGP regions

THE PETEY GREENE PROGRAM
2021-2022
COLLEGE BRIDGE PROGRAM
for Incarcerated Learners

The 2021-2022 College Bridge Report is now available and details the success we've had so far, what we've learned, and where we hope to go. Check it out!

OUR PROGRAMMING

PURSuing FEE FOR SERVICE CONTRACTS

In 2022, the PGP continued to pursue fee for service contracts with government agencies, community organizations, and providers of education.

- In Washington, D.C., we renewed a contract with the Maya Angelou Academy to provide 16 tutoring sessions per week for Maya Angelou scholars at the Youth Services Center. We also offered individual tutoring as part of compensatory educational services provided to students at the D.C. Jail.
- In Massachusetts, a new multi-year contract with the Collective for Educational Services enables us to offer one-on-one and small-group tutoring for youth in custody of the Department of Youth Services in 22 facilities in the state.
- In New York City, we renewed our contract with the Center for Community Alternatives to provide academic tutoring and mentoring for formerly incarcerated youth, helping them re-engage in education and pursue employment opportunities.

Through these contracts, we supported approximately **370 incarcerated and formerly incarcerated learners** and **generated \$155,000 in revenue**, almost three times the fee for service revenue generated in 2021.

UPDATE ON THE HBCU FORWARD INITIATIVE

We continued our efforts to recruit, elevate, and support Black volunteer tutors who support the educational goals of currently and formerly incarcerated learners. These efforts are threefold: (1) Increase the representation of Black volunteer tutors so that by Spring 2024, 20% of our volunteer tutor base identifies as Black; (2) Increase the support offered to Black volunteer tutors; and (3) Prepare Black volunteers to be advocates for educational justice.

We released a report on **Phase 2** of the initiative, detailing the implementation of the HBCU Forward Initiative at Howard University (HU) in which the PGP collaborated with Black HU volunteer tutors to design, pilot and evaluate an enhanced volunteer support model and justice-oriented leadership programming. Read more now!

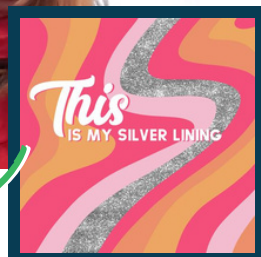

AROUND OUR COMMUNITY: PGP ON THE MIC

BOARD MEMBER SPOTLIGHT: YUSUF DAHL

Yusuf Dahl is a Member of the PGP Board of Trustees, a former PGP volunteer tutor, and a formerly incarcerated person. Following his release from prison, he created over 200 affordable housing units in his native Milwaukee, WI, and received an advanced degree from the Princeton School of Public and International Affairs. He currently is advocating for a legislative change to a clause in the Fair Housing Act that allows for discrimination against formerly incarcerated people. Yusuf went on the "All the Wiser" podcast to share his experiences and speak about how he began to invest in himself while continuing to advocate for those in his community. LISTEN NOW: "Breaking the Poverty to Prison Pipeline"

STAFF MEMBER SPOTLIGHT: LYNNE SULLIVAN

Lynne Sullivan, our Massachusetts and Rhode Island Regional Manager, joined the "This is My Silver Lining" podcast to share her story and path to the Petey Greene Program. Lynne is living proof of the transformative power of education for incarcerated learners: she earned her Bachelors' degree in Sociology through the Boston University Prison Education Program. Lynne emphasizes the power of having someone who believes in you and is grateful for the support system that inspired her to create a different path for her life through education. At the PGP, she now provides that same encouragement for other incarcerated learners. LISTEN NOW: "A Different Kind of Back-To-School"

AROUND OUR COMMUNITY

At the end of 2022, Alec Decker became our Board Chair. Alec is joined in leading the Board of Trustees by Jacki Kelly, who will serve as the Vice Chair of the Board.

Alec is a management consultant and leader specializing in advising senior executives on strategy and mission critical operations in the intelligence community, Department of Defense, and law enforcement. Over 25 years, Alec has spent time in various corporate positions at companies such as Ikun LLC, Deloitte Consulting, and The Estee Lauder Companies. Alec also spent ten years as a leader in Joint Special Operations Command where he deployed 10 times over 52 months to the Middle East and was awarded, among other medals, two Presidential Unit Citations, two Bronze Stars, a Purple Heart, and a Meritorious Service Medal. Alec is a graduate of Princeton University.

Jacki has spent 20+ years working to ensure high-quality education for people and communities traditionally left behind. She is currently the Deputy Executive Director of Development and External Relations at Hudson Guild. Jacki previously served as the founding Executive Director of The Writing Revolution (TWR) and as Director of Development at several educational non-profits including Friends of the Children of New York, Student Leadership Network, and READ Alliance. Jacki has taught elementary school children and adult immigrants. She also serves on the board of College and Community Fellowship. Jacki holds an M.A. in Elementary Inclusive Education from Teachers College, Columbia University and a B.S. in Journalism from Northeastern University.

AROUND OUR COMMUNITY

THANK YOU, ROSEMARY PARISH!

Rosemary Parish joined the Petey Greene Program in 2014 as our Director of Development and was instrumental in building our fundraising infrastructure, cultivating donor relationships and ensuring the sustainability of our ever-growing organization. She created the blueprint for the PGP's now far-reaching development efforts, including individual donors, corporate partnerships and foundation support. Because of her stewardship, the Petey Greene Program was able to expand into five new states in 2014 that we continue to serve today.

Rosemary is grateful to have served an organization that so closely aligns with her personal values: "When I heard about the PGP and how effective volunteer tutoring is - not only the benefit of the currently and formerly incarcerated students but also for tutors to see inside a system that no one can access - I could think of no more worthy project."

“The restoration of dignity that the model of our work provides is invaluable. For our learners to see that someone is coming in, week after week, to help them, to honor them. You can't put a value on that.

As she moves into a new role with the PGP - that of a supporter and consultant - we are grateful for her role in our growth and know that the future potential of the PGP is based on the foundation she laid. Thank you for all of your work over the last 9 years, Rosemary!

CALLING ALL ALUMNI! GET IN TOUCH

We are continuing to work on building our Alumni Network to help us stay in touch, create opportunities to connect with the PGP and with other alumni, and work together to build awareness about the PGP and our mission. We need your input: let us know what you're up to and what types of opportunities might you be interested in participating in as part of an alumni network.

AROUND OUR COMMUNITY

WHY I SUPPORT THE PGP

Our donors make it possible for the Petey Greene Program to support the educational journeys of incarcerated and formerly incarcerated people by providing the high-quality, individualized tutoring and academic support that every learner needs to achieve their educational goals.

“I support the Petey Greene Program because it represents justice and compassion in motion.

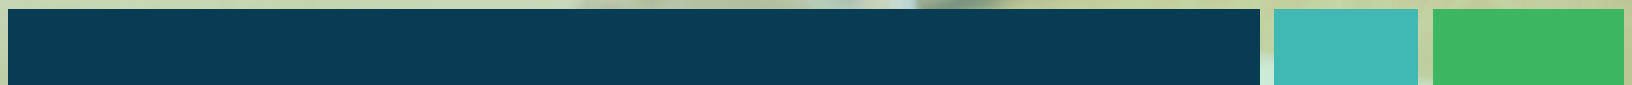

- Joseph Nye, Princeton Class of '58

“The Ichigo Foundation seeks to support organizations working to open educational opportunities to people from underserved and under-resourced communities. Petey Greene does that and more. We are honored to be part of the Petey Greene Program family.

- Janel Callon, Ichigo Foundation

“Not only is the PGP helping educate the formerly incarcerated but their volunteers are playing an important role in building their own skills as tutors in community service by their participation. I am glad to join them and help in a small way from the outside.

-Neil Chrisman, Princeton Class of '58
