

Ellipse by David C. Roy

Directions for using this template:

1. Start at the location for the top hole # 1 on the diagram.
2. Use a level or a weighted string to determine a true vertical line descending from that point.
3. Measure vertically down that line to point #2 and mark it.
4. Use a level or a square to establish a horizontal line at that #2 point.
5. Measure along that line to point # 3. Mark it.
6. Temporarily install the sculpture using those points. Mark the other mounting hole with the sculpture in place.
7. Remove the sculpture. Install the appropriate anchors and permanently remount the sculpture on the wall.
