

Pandemonium

by
David
Roy

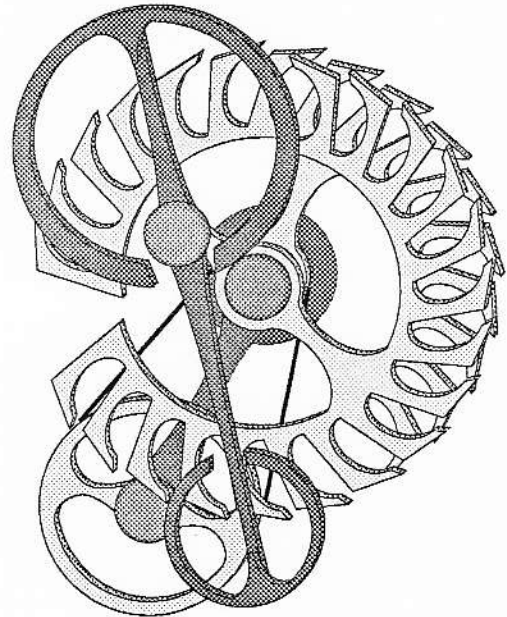

Directions:

To Mount on Wall

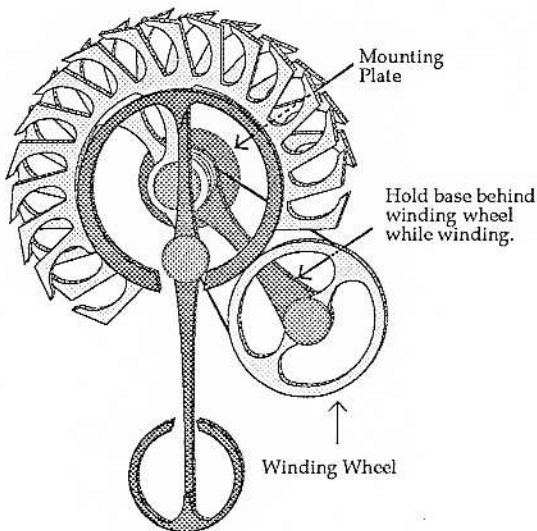

- 1) Hold the sculpture up against the wall.
- 2) Place a sharp instrument through the holes in the base piece to mark their location on the wall.
- 3) Drill pilot holes. If the wall is sheetrock or plaster use plastic anchors.
- 4) Screw the sculpture to the wall.

To Wind

- 1) It is easiest to wind the sculpture if the sculpture wheels are still.
- 2) Hold the base piece behind the winding wheel with your right hand so that the sculpture orientation is similar to that pictured below.
- 3) Turn the winding wheel 20 turns counter-clockwise using the index finger of your left hand.

To Start

The sculpture should start when you release the base after winding. If it doesn't, gently push the winding wheel base to start it swinging.
