

FOOD SUGGESTIONS

In working with alternative and holistic veterinarians my entire career, I have compiled some helpful information for feeding your pets a properly prepared diet. With the help of international Vets and USA based food manufactures I have compiled a list of foods I recommend.

The ideal form of nourishment for your pets is a fresh, well-balanced, home prepared diet. If you are interested in making your own home-prepared diet, recipes can be found in

* Dr Karen Becker's * Strombeck's, Pitcairn's, and * Volhard's books.

If a home-prepared diet is not an option for you, then I would recommend a preservative-free, human quality ingredient diet.

The best diet you can feed your pet is a species appropriate diet made from fresh ingredients that naturally support your canines DNA.

The following is a list of higher quality, chemical-free commercial diets that are available in a fresh frozen, air-dried, kibble or canned formulation. I recommend you contact your local pet stores directly to see if they have the food you are interested in.

FRESH FROZEN RAW DIETS

smallbatch pets www.smallbatchpets.com

Bones and Co. www.bonesandco.com

Feed This (Sebastopol CA - Home Delivery) www.feedthis.com

Darwins (Home Delivery) <https://www.darwinspet.com>

Home-Made (simple & easy)

Honest Kitchen (San Diego, CA) www.thehonestkitchen.com

Sojourner Farms (USA) www.sojos.com

Fresh Air dried

Ziwi peak (Complete & air dried) www.ziwipeak.com ***GREAT MEAT TREAT FOR TRAINING!**

Top Commercially Prepared Canned & Kibble Diets

I have personally checked into all of the following foods and feel these are respectable choices for commercially packaged & processed diets.

Open Farm (dry kibble) www.openfarmpet.com

Fromm (Dry Kibble & Canned) www.frommfamily.com

Rawz (Dry Kibble) www.rawznaturalpetfood.com

Orijen's/Acana (Dry Kibble) <https://www.orijen.ca>

Zignature (Dry Kibble & Canned) www.zignature.com
