OUR FOCUS

The Commons reACTORS is a theatrical company collectively interested in theatre arts who enjoy performing in a Readers’ Theatre format. Volunteer non-professional actors focus on reading, not memorizing, using expressive voices, faces and gestures to bring the story to our audiences. We provide audiences with rich, mostly humorous theatrical experiences. We create images that allow our audiences’ imaginations to soar. Words become magic!

OUR VENUES

Our actors enjoy performing in a variety of venues for a variety of audiences from senior centers, church groups, assisted living residences to business and organizations and class reunions. However, we are not limited to a specific category or location. We are flexible and travel light, just scripts and music stands.

While our performances are free, we appreciate a donation to support our future performances.

The Commons reACTORS are associated with the HOLLAND CIVIC THEATRE

A non-profit organization founded in 1960 to provide the excitement of live theatre productions and offer educational theatre experiences to the greater Holland community.

OUR PERFORMANCE

The reACTORS are prepared to perform. A typical performance would include several light-hearted and sometimes “hilarious” skits lasting anywhere from thirty minutes to one hour. You design the program!

OUR FUTURE

... maybe YOU! We are always interested in meeting people who enjoy some form of the theatre arts; acting, directing, reading and writing scripts. Come check us out. We meet weekly on Thursdays from 3-5pm at Evergreen Commons.
