OUR FOCUS

The Commons reACTORS is a theatrical company who enjoy performing in a Readers’ Theatre format.

This fun-loving group focuses on reading, using expressive voices, faces and gestures to bring the story to life – creating mostly humorous images that allow the audiences’ imaginations to soar. Words become magic!

OUR VENUES

The reACTORS perform in a variety of venues for an array of audiences from senior centers, churches, assisted living facilities, businesses, and organizations to class reunions. They are flexible and travel light with only scripts and music stands!

While performances are free, donations are appreciated to help support the group’s costs.

OUR PERFORMANCE

The reACTORS are prepared to perform. A typical performance would include several light-hearted and sometimes hilarious skits lasting from 30 minutes to one hour. You design the program!

OUR FUTURE

... maybe YOU! The reACTORS are always looking for people who enjoy theatre arts whether it’s acting, directing, reading, or writing scripts. See what the reACTORS are all about - the group meets weekly on Thursdays from 3-5pm at Evergreen Commons.

EVERGREEN COMMONS

Evergreen Commons is a community-benefit organization that has reimagined what it means for older adults to live independently and vibrantly right where they are. Located in downtown Holland, we offer a variety of comprehensive programing for active individuals, and those needing additional support in the following four areas: Life Enrichment, Sports & Fitness, Resources, and The Day Center.

Learn a new language, do woodworking, write a memoir, or travel to Spain – choose from a multitude of exciting classes, activities, and groups that will broaden your horizons to a whole, new you. The Commons reACTORS is just one of the many groups members of Evergreen Commons can participate in.
