

The Scrip program is a program which allows you to purchase gift cards and those companies then give a percentage back to Bethany from that purchase. These are standard gift cards just like you would purchase directly from the store.

50% of the rebate money to Bethany goes into an account for your tuition. For example, if you buy a \$100 gift card that has a rebate of 15% then \$7.50 would go into your tuition account (and \$7.50 goes to Bethany). Money accumulated in your tuition account can be redeemed on registration day each August. It may only be used toward tuition and is only redeemable at registration. The rest of the year it accumulates in the fund. Unused tuition account money will be returned to Bethany.

Ordering is easy! Just fill out the attached form with your order and payment. Orders are placed every other Monday and the cards arrive on Friday of that week.

On-line info: www.shopwithscrip.com

After going to the website click on "Register" in the upper right corner. Then click on "Join a Scrip Program" and enter our enrollment code (it is case sensitive):

5C8B8AAD3287L

Set up your account and you can now order online. In order to PAY online....follow the next instructions about Presto-pay:

Presto-pay allows you to pay online for your order rather than sending us an actual paper check. By using presto-pay, you then have access to Scrip Now and Reload and can get some cards much faster. Follow the on-screen instructions to link your checking account to your Scrip account. There is a 24-48 hour confirmation period involved in the initial set-up.....after that you can order online at any time and avoid turning in forms and checks to the school office!

Scrip Now merchants (indicated by *ScrNOW on our form) offer cards that you can instantly print from your computer rather than waiting for an actual gift card to arrive. Anytime you prefer an actual gift card you can always do that.....but if you're heading to the store that day and don't have time to wait just order a card and print it out! You often have a greater choice of card denominations this way as well.

Reload is also an instant-purchase type of program. Funds are re-loaded to your card overnight for orders placed before 2:30 our time. The original card must have been purchased through the Scrip program in order to re-load it and get credit.
