OPENING OF "CEREBRAL VORTEX" GROUP SHOW AT MAMA GALLERY IN LOS ANGELES
September 22, 2015

MAMA Gallery twists itself into a temporary coil, experiencing an equally unexplainable impulse to spiral briefly into the form of the Cerebral Vortex. This multi- sensory group exhibition features work from eight highly cerebral artists, like Jonathan Bepler, James Franco, Henry Hopper, Galen Pehrson, Luckey Remington, Angeline Rivas, Adam Tullie, and Double Diamond Sun Body. Cerebral Vortex will be on view until October 31, 2015 at MAMA Gallery, 1492 Palmetto Street, Los Angeles
