DENVER BRONCOS

Intergroup established a long-term relationship with the Denver Broncos in 1989 with the design of the Denver Broncos corporate headquarters building.

REMODEL OF CLUB LEVEL SUITE

Contracted to upgrade a season ticket holder suite at Sports Authority Stadium, the 5280 Club Remodel needed upgraded and reorganized to become a VIP lounge, spectator seating, and bar. The remodel replaced outdated finishes and added new seating, colors, and designs to create the feeling of an upscale, exclusive private lounge. Various entries and exits were reorganized to connect the area to the adjacent Budweiser Champion's Club.
