

FOOD DEFENSE CERTIFICATION

May 1-2, 2017

Minneapolis, MN

Objectives

1. Define and differentiate food protection, food safety, food defense, and food security.
2. Illustrate how the complexity of the food system makes it vulnerable to nefarious acts at any point in the supply chain.
3. Acquire knowledge to create, refine, and exercise a food defense plan, including risk analysis and vulnerability assessment.
4. Understand food defense policy, regulatory requirements and implications of evolving food law.

Day 1

8:30 Walk the Walls

9:00 Food Defense Threats, and Global Complexity

Amy Kircher, FPDI
