The health and safety of our guests and employees is our top priority. Through public health organizations such as the Center for Disease Control (CDC) and World Health Organization (WHO), Pima County Health Department and City of Tucson, we are staying abreast of the latest updates and developments as they occur. Any actions we take will be consistent with guidelines from these agencies and our local health department officials.

**CDC Interim Public Health Recommendations for Fully Vaccinated People**

- Recommendation for fully vaccinated people to wear a mask in public indoor settings in areas of substantial or high transmission.
- Fully vaccinated people might choose to wear a mask regardless of the level of transmission, particularly if they are immunocompromised or at increased risk for severe disease from COVID-19, or if they have someone in their household who is immunocompromised or at increased risk of severe disease or not fully vaccinated.
- Fully vaccinated people who have a known exposure to someone with suspected or confirmed COVID-19 to be tested 3-5 days after exposure, and to wear a mask in public indoor settings for 14 days or until they receive a negative test result.

**Pima County Public Health Advisory Update**

- Pima County Health Department strongly recommends that all Pima County residents 5 and older (including fully vaccinated individuals) wear masks in public indoor settings if six feet of physical distancing can’t be maintained
