

TECHNOLOGY FOR HUMAN, LEGAL DOCUMENT REVIEW

Transform your inefficient doc review with our cutting-edge, tech solution.

Our technology powers reviewers:
We couple our patented machine learning technology with our advanced analytics platform to guarantee you a more productive and efficient document review.

Next Generation Technology: Esquify utilizes proprietary tech and built-in communication tools to oversee manual reviews and provide industry leading review results.

Your Reviewers or Our Virtual Reviewers:
 Leverage our secure online community of supervised, barred, vetted, US-based contract attorneys or use your existing reviewers. Reviewers are rated based on real-time performance data creating unprecedented review accountability for your cases.

Esquify works in tandem with your existing eDiscovery license.

We enhance reviewer performance ... it's that simple.

- ✓ Experienced Esquify case managers oversee your review and assure case success.
- ✓ We deploy best-in-class security features, giving you peace of mind.
- ✓ Cut out wasteful spending and inefficiencies and access real-time analytics on your review's progress.

Gain unprecedented insight and savings.

Our customers have seen:

- 90%+ reviewer time efficiency
- 20%+ savings from technology alone!
- 20-45% overall cost savings vs. a traditional manual review

*Relativity users! Try our newly integrated "Reviewer Command Center!"
 Download the Esquify iPhone App & get your data on the go!*
