

Baby

(Written by Pamela McNeill)

You can run along to another town
You can leave me far behind you
You will not find another,
find another baby like me

When you're all alone, sun sinking down
Can't you feel my love surround you?
You will not feel another,
feel another baby like me

(Bridge)
So powerful -
You're like a storm of oceans
That washes over my heart so blue
It's calling out -
Even when it's broken
'Cause it's so easy to give it all to you

I'm the only one never let you down
And you know I will be waiting
You will not find another,
find another baby like me

(Bridge Repeat)

You can run along to another town
You can leave me far behind you
You will not find another,
find another baby like me

When you're all alone, sun sinking down
Can't you feel my love surround you?
You will not feel another,
feel another baby like me
No, you will not find another,
find another baby like me.
