

# Jack Hylton Complete Discography

Well, here it is. It's nothing to do with my hard work, though. Huge thanks must go to Dennis Pereyra, who's sole effort these pages are. He kindly offered to fill the gap in the site, and I'm fairly sure it's all there (over 2,000 entries). If what you're after isn't here, you can be fairly sure Hylton didn't record it! If you find an entry missing or wrong, then let me know and I'll sort it out. The Band Code is described below and tells you what name the band was recording under for any given tune. ENJOY!
