FP 1	Pembroke Hill School	The The Matchmakers	<p>Love for the Future: The Search for Sustainable Solutions and Relationships.</p> <p>Since first airing in 2002, ABC's "The Bachelor" has captured the attention of millions with each passing season, as audiences are captivated by larger than life on-screen personalities, all vying for the attention of the infamous "one". However, after receiving historically low ratings and a dismal IMDb score of 3.1/10, the producers of the show, in a last-ditch effort to broaden their viewer base and boost ratings, have partnered with the Discovery Channel to revolutionize the Reality TV industry with an exclusive new program. ABC presents "Love for the Future", where contestants can express their love for sustainability, and for once prove they're capable of thinking about something other than their outfit for the rose ceremony.</p>	1.
