

STOP SMOKING FOR SAFER SURGERY

Did you know?

- smoking increases the risks of general anesthesia
- smoking raises the chances of surgical infection
- smoking slows your healing after surgery

Now is the right time for you to stop smoking, and your Anesthesiologists are here to help.

For more information, please visit our website at StopSmokingForSaferSurgery.ca or phone the Smokers' Helpline toll-free at 1-877-513-5333.
