St. John's now has a Hearing Loop Hearing Loops allow people who wear hearing aids to directly receive the sound from the church's PA system in their own hearing aids without having to pick up a separate listening device. The hearing loop system at St. John's enables parishioners with hearing loss to participate fully in the services. If you wear hearing instruments you will need to ask your audiologist to activate your T-coil if available. For more information, talk to your audiologist or visit www.hearingloop.org.
