

BENEFITS AND FEATURES:

- Low cost alternative to Litz wire, wire wound or PCB coils
- True-Bifilar construction maximizes magnetic field intensity
- Comparable performance, tested at 68% efficiency
- Vibration resistant
- Thermally efficient
- Overall thickness without ferrite at 0.5mm
- Aluminum alloy results in lightweight construction
- High manufacturing precision and consistency for high volume production
- Standard configurations available for A6 and A11 WPC Qi geometries
- Custom configurations welcome, including multimode capabilities
- Supply entire assembly, including ferrite and support plate
- Patent Pending
