SQUARE FEET  
INSTALLED**

## TESTIMONIALS

“Real Hit Media is very reliable. They work with us as partners and do what it takes to ensure the job is done well. I’m just reluctant to recommend them b/c I don’t want them to become too busy to work for us!”

- Steve Brinhak / CEO Inwindow Outdoor

“Real Hit Media made my 42nd Street project for MoMA run smoothly from beginning to end. They are true professionals whom I would highly recommend.”

- Althea Penza / Graphic Design Production Manager at  
The Museum of Modern Art NYC

“Hands down, Shad and the staff at Real Hit Media are THE BEST at their craft. Shad has helped me and Highbrid Outdoor too many times to count, always going the extra mile to make sure our ads are installed correctly and we’re happy and our clients are happy. Shad and Real Hit Media are experts at installing any type of signage from vehicle wraps, billboards, wallscapes, window ads, or basic cad cut lettering. We wouldn’t trust our installs to anyone else and neither should you. Shad is also very loyal. I’ve seen this displayed numerous times over the six years we’ve worked together, and that’s something you can’t put a value on. Although technically he’s not employed by Highbrid Outdoor we consider him part of our family.”

- Daniel Gutzmore / President at Highbrid Media

“Shad is one of the best installers in the country and has years of experience wrapping buildings and vehicles. He is highly recommended to hire for graphic installation.”

- Justin Pate / Certified Graphics Instructor/Installer

“Shad is a true professional in the graphic installation business. His knowledge and skill is second to none. He is on his way to becoming a pillar in our industry. His use of the latest technology to keep in touch with his consumer base will keep Real Hit Media Inc. on top for years to come. If you are looking for an installer in the New York area RHM should be your first and last choice”.

- Kenneth Tonn / Graphic Film Installation Expert / Principal at  
Brand Installers Inc.
