Hybrid Capital is a full service commercial mortgage brokerage and real estate capital advisory firm representing clients nationwide in the course of acquisitions, recapitalizations and construction / development projects.

Over the past three years, Hybrid Capital has arranged financing for transactions valued in excess of \$1.5 billion.

Transaction Highlight: Permanent Financing, East Harlem, NY

Challenge: Securing permanent financing for a six-story 49-unit multifamily elevator building located in East Harlem. The building was damaged by a gas explosion and required extensive repairs.

Result: Hybrid Capital worked closely with both lender and sponsor to address the lender's concerns regarding the necessary repairs and was able to raise five million dollars in permanent financing for the sponsor. Our strong relationship with the lender was instrumental in securing a competitive 3.5% interest rate with a twelve year term within the time frame required by the sponsor.
