

ARCHITECTURAL DESIGNER LEVEL 1

JOB DESCRIPTION

ANACAPA, formerly Dan Weber Architecture is searching for talented and creative individuals to join our creative design-oriented team. We are a small, dynamic studio of highly creative and competent designers. We are seeking an Architectural Designer (Level 1) to become an integral part of our collaborative studio environment, to work in all phases of project delivery on a wide variety of project types.

RESPONSIBILITIES

The Architectural Designer (Level 1) role includes responsibility for all aspects of project design and delivery including design, 3D Modeling, Building Information Modeling, Presentation Graphics and materials, production of plans/specifications, quality control, consultant coordination, construction administration, coordination with ANACAPA team members and maintaining deadlines and schedules. This person will be our main Revit designer to support one or more project managers.

SKILLS AND QUALIFICATIONS

- Excellent design capabilities
- Bachelor's or Master's Degree in Architecture
- 1-4 Years of relevant work experience
- High proficiency in AutoCAD and Revit required
- Proficiency in either Rhino or 3ds Max using V-Ray
- Proficiency in Adobe CS including Photoshop, Illustrator, and InDesign
- Proficiency in MS Office including Word, Excel & Microsoft Projects
- Ability to work on multiple projects in a fast-paced environment
- Exceptional attention to detail
- Ability to prioritize and to manage work independently
- Excellent verbal and written communication skills
- Ability to work constructively as a member of a collaborative team

OFFICE CULTURE

- Dog friendly
- Collaborative work environment
- Monthly team happy hours and team lunch outings
- Annual team retreats and educational site visits
- Located conveniently in the heart of downtown Santa Barbara

*** Compensation dependent upon education and experience.*

ABOUT US
