

## HAIR EXTENSIONS

Hair extensions aren't just for adding length to your hair. Your stylist can add a pop of color to enhance your style or create fullness & volume to fine limp hair. Upon consultation your stylist will evaluate the texture & condition of your hair to determine what type of extension is best for you.

### Tape In Method

This brand-new method is a showstopper. Installation is astonishingly fast and the look is shamelessly seamless. Clients are raving about how Tape-Ins provide length and volume and blend easily into hair.

This revolutionary method installs in as little as 45 minutes, so you'll be looking fabulous in no time. And because it's so speedy, it will save you precious time and money. The medical grade adhesive is designed for hair, so with proper care, tape won't weaken until you're ready to remove it with the help of our trusty Tape-In Bond Remover.

**DREAMCATCHERS** • Micro-cylinder™ technology: hair extensions that are a clean, easy and non-damaging. The system is incredibly simple and efficient. Client time in chair is two hours for a full head application and return adjustment visits are approximately one hour. The clients' own hair and extensions will look and feel amazing, healthy and gorgeous.

**DREAMCATCHERS** are the best quality hair extensions in the world! The secret to gorgeous hair is in the quality, therefore we only use 100% selected human hair. It creates that natural look as if it was all your own hair. The quality is unmatched by any other extension on the market, and in most cases, is often better than your own hair. Our extensions have a luster and shine that never diminishes. You will be knocked out!

**DreamCatchers** Technique and maintenance program is revolutionizing the hair extension industry: Our extensions are reusable giving you sustained enjoyment of beautiful hair.
