How Do I use my Immortal Face Lift?

- Immortal Face Lifts are typically with a prescribed sequence of hand positions. These positions are not required. You may choose to follow the prescribed hand positions, or you may focus on other areas of your body and face as you see fit.
- If your recording does not include specific hand positions, begin your recording by placing your hands in a desired body position. Once the session begins, you may change hand positions, or rest your hands to your sides.
- ***For The Mortal ReGenesis Face & Body Lift- begin with your hands on thighs or hips.**
- Holding your hands near or on your body will create a greater energetic experience.

IMMORTAL FACE LIFTS FAQ

- Immortal Face Lift recordings may be played at low or no volume while active, resting, or sleeping. **Please do not listen to these recordings while driving, cooking, or operating heavy machinery.
- Immortal Face Lift mp3s may be mixed into playlists with other Immortal Face Lifts.
- Immortal Face Lift mp3s may be played during other energy sessions.

Will my Immortal Face Lift mp3 Expire?

- * Immortal Face Lifts always activate in the moment, and their energies remain pertinent to the individuals receiving them at the time of activation.
- Individual Immortal Face Lifts may be received any number of times. Sometimes, bodies don't seem to respond to a session in the same manner as before. Receiving a different Immortal Face Lift session will typically create enough change for the previous session to activate differently and create a new experience.
- * If Immortal Face Lifts are shared without permission, the energies may be perceived, but the activations are unlikely to be effective. This may be misunderstood as expired energy, but is actually a result of the session becoming inactive due to Rann's coding.

How do I use my Immortal Light Mask?

- * Begin with playing your Immortal Light Mask once a day, 3-4 times per week. After 4 weeks, session activity may be maintained or reduced.
- * Place hands on face during the Facial mask.
- * Hands may also be placed on other areas during a light mask session, but maintain a single session per area per day.
- * If an Immortal Light Mask has been designed for a specific purpose, focus only on areas that match the conditions for that purpose. (example: only use light masks for acne on skin with acne.)
