

# HAMMOND & COMPANY

SUSTAINABLE DEVELOPMENT & CONSTRUCTION SERVICES

Bruce Hammond is CEO of Hammond & Company, an award winning construction company doing business in the north bay region for the last 35 years. The focus of this firm, since its 1980 inception has been identifying and utilizing construction technologies and practices that minimize impact on the environment, with particular emphasis on energy efficiency, resource conservation, durability, and ecologically integrated site development methods. Their projects have won many awards and have been featured in Sunset Magazine, the San Francisco Examiner, Global Architecture, Progressive Architecture, Green Building & Design, Houzz, and Green Builder.

Bruce has been a featured speaker on Green Building for many conferences and professional organizations. Mr. Hammond is a LEED Accredited Professional. He was the founding Chairman of the US Green Building Council - Redwood Empire Chapter, and is currently a member of their Board of Advisors. He was one of the founding faculty of the year-long "Green Building Professional Certificate Program" at Sonoma State University where he taught for 5 years. He was Planning Commissioner for the City of Cotati, and the Solar Energy Specialist as a member of their Design Review Board. Bruce was instrumental in certifying the first LEED project in the North Bay Region, The Cotati Police & Community Services building, and in establishing Cotati's "Sustainable Building Program." Bruce is a member of the Certification Board of "the Green Advantage", an ANSI certified international training program for green building professionals.

Bruce has a passion for green building, ecological landscape design, and the art of Aikido. He is a lifelong learner and a lover of wild places. He lives in Santa Rosa with his wife and children.
