ANATOMY OF A GREAT SCHED SESSION

Click here to edit your description (it will come to us for approval) and to add presentation slides!

Catchy title that ties into the theme AND gives attendees a solid sense of what it’s about! Only admins can change titles, though, so send us an email to alter!

Brief and informative description (hyperlinks are cool!) that explains the topic AND the approach/interactivity.

Our team will add the Community Notes documents to all sessions later on—so don’t worry. Just be sure not to delete our link!

Great bios and images to help attendees get a sense of who you are!

Make sure the session “type” fits your session format (if not, email ashley@thelibrarycollective.org if you want to switch to a different one).
