

A-7E CORSAIR II

Powered by a single Allison-Rolls Royce jet engine, the A-7E can achieve high speeds up to 562 knots at sea level & carry bomb loads over 8,000 pounds, making it a successful Light Attack aircraft. This A-7E was flown by Captain J.R. "Shooter" Sanders in 39 missions over enemy territory in Iraq in the first Gulf War, represented by camel silhouettes outside the cockpit (not all shown).
