Education

- 2013 – present** **The Queen's College, Oxford University**
B.A. Experimental Psychology
Dissertation: Behavioural economics
Research project: Moral decision making with The Crockett Lab
- 1999 - 2012** **Kambala Girls School, Sydney Australia**
International Baccalaureate
Higher Level: Psychology, Economics, English
Standard Level: Maths, Chemistry, Spanish
Extended Essay: "Self-concept maintenance theory as an explanation for the dishonest behaviour that contributed to the 2008 financial crisis"

Work Experience

- 2016** **Research Assistant**
The Crockett Lab, University of Oxford
Working under Dr Molly Crockett in a lab focusing on moral decision making aiding with existing projects. This work involved recruitment of participants for lab experiments and online studies on social learning and moral decision making and work in Qualtrics.
Completing my undergraduate research project exploring confidence in moral decision making, supervised by Dr Molly Crockett. This involves designing, recruiting and running an experiment independently, followed by data analysis and scientific write-up.
- 2014 - 2015** **Vice President of Undergraduates (JCR)**
The Queen's College, University of Oxford
Representing the students in resolving issues between the undergraduates and governing body, such as rent negotiations.
Day-to-day admin tasks involved managing fellow student representatives, taking minutes, sending out the newsletter, writing and amending the constitution.

2013

Office Administrator

Kane Constructions, Sydney Australia

Working full time and part-time answering phones, logging and tracking invoices, filing and data entry, organising staff training events, assisting with document preparation (e.g. tenders), maintaining databases, and liaising with clients.

Developed excellent organisation and communication skills.

2013

Childcare Program Assistant

OSHClub (Outside School Hours Club), Sydney Australia

Supervising children before and after school. Responsibilities included creating and organising activities and healthy meal plans for the children as well as daily administration work and creating and implementing safety procedures.

Developed skills in leadership, teamwork and creativity.

Volunteering

2012 - 2013

Giant Steps School for Disabled Children Sydney, Australia

Organising and carrying out fundraising events, as well as assisting in the classroom and at volunteer days, and cleaning up the school.

2013

Wairoa School for Disabled Children Sydney, Australia

Supporting the teacher in the classroom, supervising and interacting with the children in the playground, and assisting in the organisation and execution of school events (i.e. sport days).

Research Skills and Interests

Interests:

I am interested social psychology, particularly behavioural economics and the application of psychology to other disciplines, originally sparked by the work of Daniel Kahneman and Dan Airely. Through my experience at university this has developed into an interest in how humans make decisions and how research in this area can be used to benefit society, such as through advising policy changes.

Skills:

Experience in using SPSS, MatLab, SigmaPlot and Qualtrics.
