The Vaughn Monroe Show Description

This unique show transports the audience to October 1949, just after World War II.

The Vaughn Monroe Orchestra under the direction of **Dan Gabel** performs the original hits of Monroe, along with the Moon Maids vocal group, dancers, comedian, and skits from the Camel Caravan radio and TV show. "Racing with the Moon", "There, I've Said It Again", "Ballerina", "Let it Snow" and "Ghost Riders in the Sky" will all be heard using the **original** hand-written **manuscripts** through special arrangement with the Monroe family and New England Conservatory. Original band member and legendary guitarist Mr. **Bucky Pizzarelli** joins the outfit in a truly spectacular event. It is our goal to create an evening of entertaining time travel and "the voice that won the war."
