" Source 1 is a company we we turn to when we require obsolete & EOL parts. Jason & his team are always responsive, provide excellent pricing and the quality of parts & packaging is always the same - perfect. "

American Dryer has done business with Source1 Solutions since January of 2012. In that time we have found them to be a very reliable and great supplier. Their parts are always on time and of perfect quality, never any issues. They reply to emails and are always very professional. Regarding my salesman Jason, he and I have done business together at various companies for the better part of 15yrs. He is incredibly reliable, honest & loyal. I would recommend both to anyone.

“ Jason has been relentless in his efforts to find CDI obsolete parts. He has worked with me on the pricing and delivery. He is an asset to your company and you need to hear this. I appreciate ALL of his efforts. Thank you for having GREAT STAFF like JASON!!!! ”

KBH Electronics Inc.

“ Having worked with Source 1 on many requirements, they are always quick to respond with pricing that is better than suggested targets & their personal attention is excellent. We highly recommend Source 1! ”

“ Kevin Dommermuth has been supplying Ametek APT with electronic components for over 5 years. Kevin and his team are brilliant at sourcing obsolete and hard to find components. They are responsive at every stage & provide products on time at great rates, everytime.

Kevin has earned my & Ametek APT’s confidence and commendation. “
