The Asian Trade Centre (ATC) is the premier regional thought leader, advocate and educator for trade in the Asia Pacific region and serves as the resource for trade-related activities in Asia. We are trade policy and supply chain subject matter experts for the region. ATC is actively engaged in driving trade facilitation and simplification, and is recognized as a leading and trusted voice in regional and global trade policy forums.

Research Analyst Internship

The Asian Trade Centre is seeking a Corporate Advisory Analyst to join our team for an internship. Research Analysts are key contributors to the design, development and delivery of ATC’s Free Trade Agreement optimization, Supply Chain Redesign and Trade Compliance corporate products.

Throughout the internship, Corporate Advisory Analysts will:

- Collaborate in the completion of work scope design, customer and industry data collection and analysis, the development of alternative sourcing, distribution and supply chain network models and implementation of FTA optimization and trade compliance strategies;
- Assist in the development of ATC’s customer and partner database;
- Identify emerging trends and opportunities in the supply chain and trade advisory landscape to create insights that add value to existing ATC products and services;
- Assist in the development of market and content strategies for ATC products and services. Assignments will include: (i) the development of the pricing and positioning of ATC products and services based on market and customer insights; and (ii) developing and establishing the value proposition of ATC products and services in the market;
- Create and maintain tracking reports of marketing efforts to make recommendations for improvement to management; and
- Analyse trade agreements negotiation and implementation in Asia related to the operations key target industries across the Asia-Pacific region.

Candidates must be enrolled or have completed a bachelor’s or graduate degree program in economics, business or business administration, political economy or be able to demonstrate relevant experience in any of those areas. We are looking for someone who is a team player ready to make an impact on ATC’s corporate advisory projects and passionate about developing tailored products that meet the address the needs and challenges across the region.

Interested Candidates:

- Must be enrolled or have completed a degree or show relevant experience in economics, business administration, data analytics, political economy;
- Have a broad understanding of trade and international business;
- Full professional proficiency in written and spoken English is required;
- Proficiency in business and economic data collection and analysis;
- Strong editing and analytical skills, as well as ability to think critically about product scope;
- Previous work experience;
- Able to commit full time for at least 8 weeks or part time for at least 4 months 2 - 3 days a week.
- Capacity to work independently, with excellent time management and organizational skills.

This internship is open to both Singapore and Internationally based candidates, who may telecommute for a portion or the entirety of their internship.

Please send your CV/resume along with a cover letter and a writing sample to sebastian@asiantradecentre.org, with the subject heading “[Application] Corporate Advisory Analyst”.

In your cover letter please specify: proposed starting and end dates, part-time/full-time, Singapore/Internationally based.

ATC will review and accept and review candidates on a rolling basis for the rest of 2020.
matter experts uniquely positioned to meet the trade related needs of businesses—small and large—and governments—regional and foreign—operating across the region.

Our expertise includes:

- Research analysis that incorporates qualitative and quantitative geo-strategic, economic and political analysis of the region;
- Sensible knowledge and input to multilateral organisations and government officials grappling with crafting modern trade agendas for the future;
- Capacity building for key personnel from MNCs and MSMEs trading in the region and trade officials;
- Strategic and creative thinking to navigate the political, economic and commercial complexities of Asia-Pacific markets and regional institutions;
- Supply chain assessment and redesign to establish sourcing and distribution set ups that optimize existing FTA benefits and mitigate trade barriers.
