

THE PROBLEM

In Alberta,
youth aged 18-25
have the lowest rate
of voter turnout,
lower than any of the
other provinces.

Alberta also has the
lowest level of
post-secondary
enrolment in Canada.

We have the **highest dropout rate for both university and college**; and, there is a higher number of youth that drop out of high school here too.

Given the relationship
between education
and voter turnout, the
need to get out the
vote in Alberta
is especially
important!

THE SOLUTION

GET INFORMED

Government affects
your daily life!

BE HEARD

Voting is habit forming.
