BY-LAW 1.00 – STUDENT PARTICIPATION

1.10 CERTIFICATION OF ELIGIBILITY

1.11 Students are eligible to compete for the GFCA member school in which they are enrolled if they meet academic and participation standards set by that member school.
   (a) “School” shall be defined as a member school.
   (b) Students enrolled in grade nine (9) in a middle school or junior high school which is a feeder school to a member high school may only compete for the school in which they are enrolled.

   (e) Questions concerning eligibility should be addressed to the Chair of the Executive Committee who will serve as the chair for any transfer hardship process.

1.12 Students have ten (10) consecutive semesters or five (5) consecutive years of eligibility starting from the date of entry into their first high school speech or debate division. Of these, students have (8) consecutive semesters or (4) consecutive years of eligibility starting from the date of entry into their first high school speech or debate division at the varsity level.
   (a) Students may only compete in a “novice” or “first year” division in the school year in which they entered their first high school speech or debate division.
   (b) Students may only compete in a “second year” division in the school year in which they entered their first high school speech or debate division or the next year that they compete.
   (c) A student’s eligibility expires upon graduation from high school or after ten consecutive semesters, whichever comes first. Once a student is no longer eligible, they may not compete at GFCA state tournament events.

(c) Students in grade eight (8) may not participate in an “open” division at a tournament.

1.30 – SCHOOL SERVICE AREAS/TRANSFER/MIGRANT STUDENTS/MIGRATORY WAIVER
1.31 School service areas for member public schools are those attendance boundaries established by local boards of education from which a school normally draws its students. The school service area for a member private school is the county in which the school is located.
1.32 A transfer student who has established eligibility at a former school in grades 9-12 shall be immediately eligible at the new school if
(a) The student moved simultaneously with the entire parental unit or persons s/he resided with at the former school, and the student and parent(s) or persons residing with the student live in the service area of the new school. This is known as a “bona fide move”.
   (1) The student may choose the public or private school servicing that area.
   (2) It must be apparent that the parent(s) or the persons residing with the student and the student have fully relinquished the residence in the former service area and have occupied a residence in the new service area.
   (3) Relinquishment includes one or more of the following: selling the residence; having the residence listed with a real estate agent for sale at a fair market value; having a contract with a buyer; having a lease agreement at a fair market value; abandoning the house and shutting off unnecessary utilities. When a family claims multiple residences, the residence for which they apply for a homestead exemption will be declared the primary residence.
   (4) The bona fide move is validated when the student’s family maintains the new residence for at least one calendar year. A return to the previous residence within that year renders the student to be a migrant student. All hardship appeal processes are available.
(b) The student was enrolled in a private school or magnet school and has a bona fide move from one public school service area to another public school service area. A student in this situation may attend either the public school or a private school servicing her/his area of residence.
(c) The student is involved in a foreign exchange program that is approved and published on the “Advisory List of International Educational Travel and Exchange Programs” published by the Council on Standards for International Educational Travel (CSIET) or any similarly recognized foreign exchange program. The student shall be considered eligible for a maximum period of one calendar year. The student may not be a graduate of a secondary school in her/his home country. The student must maintain eligibility requirements at the member school.
(d) The student has one of the following family-related situations that produce a waiver of the bona fide move rule:
   (1) There is a Superior Court or Juvenile Court awarded change of permanent custody and the student moves to the residence of the parent receiving custody. The student must attend the member school servicing that area of residence.
(2) There is a Superior Court or Juvenile Court final order awarding permanent joint
custody to the parents and the student moves to a residence or her/his parent
outside the service area of the previous school. The waiver may be made one
time during a calendar year.
(3) There is a death of a custodial parent and the student moves to live with the
other natural parent in a new school service area.
(4) There is a military transfer of one or both custodial parents that creates a change
of residence that is not a bona fide move.
(e) Students who are United States citizens returning from a foreign country shall be eligible
as long as they meet all other requirements of eligibility.
(f) Students who are transferred from one school attendance area to another school
attendance area by a mandate of the local board of education maintain their
eligibility.
(g) Students who transfer because one or more of the parents/custodians have become
employed with a new school district and that school district allows the student to
attend the schools within the district even though residence remains in a different
district.

1.33 A migrant student is a student who transfers into a school without a bona fide move or without
one of the exceptions listed in by-law 1.62. The student may practice or compete at the sub-
varsity level, but may not compete at the varsity level for one calendar year from the date of
entry into the new school.
(a) All appeals for family and/or religious exceptions are to be handled by the Executive
Committee.
(b) All appeals must be submitted in writing to the Director of Operations.

1.34 A student who is not eligible at one school because of suspension or expulsion and then
transfers to another member school cannot regain eligibility by such a transfer, for the length
of the suspension or one (1) calendar year, whichever is less.

1.35 Hardship applications may be filed to attempt to establish eligibility in the following situations:
(a) change in family marital or child custody status.
(b) undue family financial hardship.
(c) academic pursuit.
(d) religious exceptions.
(e) All other appeals will be submitted to the Executive Committee for review.

1.36 When a new school opens, student eligibility shall be determined when a school mandates an
attendance area for a new school for all grades at the new school and/or when a school
district mandates some students to attend the new school, allows some to stay at the present
school, and permits some students to transfer to the new school.

1.40 RECRUITING/UNDUE INFLUENCE

1.41 Recruiting and Undue Influence is defined as the use of influence by any person connected
directly or indirectly with a GFCA member school to induce a student of any age to transfer
from one school to another, or to enter the ninth (9th) grade at a member school for
competition purposes, whether or not the school presently attended by the student is a
member of the GFCA. The use of undue influence to secure or retain a student shall lead to
penalties assessed to either school and may cause the student to forfeit eligibility for one year
from the date of enrollment.
(a) Evidence of undue influence includes, but is not limited to: personal contact by
coaches, sponsors, parents or other school stakeholders in an attempt to persuade
transfer, gifts of money, jobs, supplies, clothing, free transportation, admission to
contests, invitation to attend practices and/or competition, or free tuition.

2.20 QUALIFICATIONS TO COACH

2.21 A forensics coach or sponsor must be a professional teacher meeting the teaching requirements and be employed by only one board of education or similar governing authority regardless of whether or not they are paid for their coaching. These coaches and/or sponsors must  
(a) be employed on a regular basis in a professional, contracted position OR

2.30 TOURNAMENT REGULATIONS

2.31 Tournaments must be approved by the Director of Communications and Online Presence Coordinator via application at least thirty (30) days in advance of the first day of competition of the tournament via email or mail. (b) The GFCA is not required to sanction an out-of-state tournament or competitive forensic event.  
(c) Bids to the state tournament may only be awarded at sanctioned tournaments and competitions.

2.32 Tournament Directors and/or Sponsors are required to send a copy of the full competitive results to the Membership Coordinator within ten (10) days following the last day of competition of the tournament. Failure to send results could result in a school losing its sanctioned event status in the following school year and/or loss of current qualification bids to the GFCA state tournament earned at that tournament.

2.33 Event competitions for preliminary rounds may not be scheduled for later than 9:00pm or begin later than 10:00pm.

2.34 Elimination and/or final rounds of competition for the state tournament may be postponed with the approval of at least three (3) members of the Executive Committee.  
(a) Tournament directors are discouraged from postponing competitions except under dire circumstances and with the acceptance of all coaches of all competing members involved. A time and location should be set before adjourning the original competition. Tournament directors should alert the Membership Coordinator of such postponement for the purpose of state-qualification records.

2.35 In some cases a “bye” may be granted to the competitor(s). This counts in positive standing towards the competitor(s) record.
2.36 Availability of Evidence: It is the philosophy of the GFCA that cheating and plagiarism are unacceptable in all events. Contestants electing to use computers have the responsibility to promptly provide a copy of any evidence read in a speech for inspection by the judge or opponent. Printers may be used. Evidence may be printed in the round or produced electronically, but must be provided in a format readable by the opposing team/competitor and the judge. If students do not use computers and utilize hard copies of, any evidence requested by the judge must be presented at the time of request. If a competitor/team is unable to produce evidence under question or refuses to provide the evidence, the competitor refusing such action could receive an automatic loss for or other actions deemed necessary by the GFCA officers.

At least two pieces of literature that represent at least two separate genres must be used. All selections must be verbally identified by title and author. Competitors are encouraged to devote approximately equal times to each of the genres used in the program. This distinction pertains to these two or three genres as a whole, not types of literature within a genre (such as fiction/nonfiction).

(b) The use of manuscript is required. The intact manuscript may be used by the contestant as a prop, so long as it remains in the contestant’s control at all times. No costumes or props other than the manuscript are permitted. The contestant must address the script; however, introduction and transitional material may be memorized.

A fabricated topic may not be used. Any non-factual reference, including a personal reference, must be so identified.
Audio/visual aids may or may not be used to supplement and reinforce the message. If used, the audio/visual aids should enhance or support the message rather than distract from the overall effectiveness of the presentation. During the presentation, no electronic equipment is permitted. Electronic equipment is defined as any object requiring an electrical cord, battery, or solar power to operate it (projectors, cell phones, radios, iPads, computers, etc.). The use of live animals or any additional people as visual aids is not allowed during the speech. Items of dress put on and/or removed for illustration during the course of the presentation are considered costumes and may not be part of the contestant’s presentation. Visual aids may not violate policies as dictated by local and state law (weapons, drugs, etc.) The host school is not responsible for providing any facilities, equipment, including tables, chairs, or easels, or assistance in a contestant’s use of visual aids. Expedient set up and take down of aids is expected. If a visual aid displays published pictorial material, the source must be included in the work-cited page but does not need to be cited orally.

The contestant may not use an informative speech which s/he used in any contest prior to the current school year or during the current school year in another forensic event. The contestant also may not use an informative speech from a previous school year.

4.37 Advancement to elimination rounds

(a) Lincoln Douglas, Public Forum and Policy Debate: Eight (8) entries will require advancing to a final round; 9-14 entries requires a semifinal round; 15-30 entries requires a quarterfinal round; 31-64 entries requires an octofinal round; more than 65 entries requires a double octofinal round. This formula will only be utilized if it still allows the final round to reasonably be able to start by 10:00 pm on the final night of the tournament. The ability to complete the tournament in the allotted time shall take precedence over this formula. Winning records (4-2) must advance to elimination rounds.

(1) Advancement of teams/debaters shall be determined by seeding after preliminary rounds are complete. Seeding for elimination rounds will be determined based on preliminary records. In case of ties the tiebreakers shall be in the following order:
   [a] High-Low Speaker Points
   [b] Double High-Low Speaker Points
   [c] Total Speaker points
   [d] Average Opposition Seed from Prelim Rounds
   [e] Random Number (as determined by Tab Room software)

(2) If a team without a winning record is seeded high enough to advance to elimination rounds, then the team that they are scheduled to face would automatically advance to the next elimination round.

(3) If policy debate and Lincoln Douglas debate teams debating in a given elimination round debated one another in the preliminary rounds, then they will debate the opposite side of the resolution in the elimination round. If the teams have not previously debated at the tournament, then sides for elimination rounds will be determined by coin flip. The winner of the coin flip will be able to choose which side of the resolution that they will defend.

(4) All elimination rounds shall have a minimum of 3 judges. The team receiving the majority of ballots in an elimination round will advance to the next elimination round.

(5) Brackets shall NOT be broken in out-rounds.

(b) Speech: If there are 7 or fewer entries then just prelims, dropping lowest score, determine state champion. 8 to 23 entries require a final round (6 competitors, 1 section); 24-47 entries require a semifinal round (12 competitors, 2 sections); 48+ entries require a quarterfinal round (24 competitors, 4 sections).

(1) In a quarter-final round of speech, each section should have between 4-7 entries per section for a total of no more than twenty entries but not more than half of
the total entries in the event. Entries advance to the semi-final round based upon the total of ALL scores (including individual judge scores), dropping the low score.

(2) Twelve entries should ideally advance to the semi-final round. The semi-final round of speech must have at least nine (9) entries. Entries advance to the final round based upon the total of ALL scores (including individual judge scores), dropping the low score. In the event of a tie either from preliminary rounds or a quarter-final round, the tie should NOT be broken if the total number in semi-finals does not exceed fourteen (14). If not breaking from quarter-finals, and a tie resulting from preliminary rounds advances more than 14, the tie shall be broken by using, in order:
   [a] total judge scores if advancing from a quarter-final round;
   [b] total of ALL scores from preliminary rounds;
   [c] total number of 1’s, total number of 2’s, etc. until tie is broken
   [d] if the two entries met previously, the entry that placed above the other;
   [e] if the entries have not previously met, use reciprocal fractions;
   [f] coin flip with coaches from concerned schools present.

(3) At least four (4) entries must be in the final round of an Individual Event/Duo Interpretation; the goal should be six (6). Advancement of entries is determined from all previous scores, including all individual judge scores if quarter-final and/or semi-finals are held. The low-score is dropped in determining advancement to the final round. Advancement of six entries is ideal. Ties are not to be broken to advance to the final round unless the tie causes fewer than four or more than eight entries to be in the final round. For the final round, if the choice is between five and seven entries, seven shall advance. If the choice is between four or eight entries, the choice is four. In the event that a tie does not allow criteria of number of participants in the final round to be met, the following tie-break system should be used TO DETERMINE FINALISTS IN INDIVIDUAL EVENTS/DUO INTERPRETATION, continuing until the tie is broken:
   [a] add up ALL scores from all judges;
   [b] total number of 1’s, total number of 2’s, etc.
   [c] entry with higher score of previously met in competition at the State Tournament
   [d] conversion of scores to reciprocal fractions;
   [e] coin flip with coaches from concerned schools present.

(4) Winners shall be determined by adding up all scores of ALL judges and dropping low score through the final round. The student with the lowest total will be named Champion; the students with the next lowest score will place 2nd, etc. Tie breaks broken by, in order,
   [a] rank in final round only; if tied, then by judge preference in the final round;
   [b] total of ALL scores
   [c] total number of 1’s, total number of 2’s, etc.
   [d] reciprocal fractions of all scores;
   [e] if unbreakable, then the tie shall stand and both entries will receive the placement. Placement shall remain in order; placement will not skip in order to accommodate the tie.

(c) Congressional Debate:
   (1) If only one chamber is used in preliminary rounds, the top twelve (12) advance to the Final Session.
   (2) If more than one chamber is used in preliminary round, proceed as follows
      (a) For two (2) chambers, the top eight (8) students should advance from each preliminary chamber.
For three (3) chambers, the top six (6) students should advance from each preliminary chamber.

For four (4) chambers, the top four (4) students should advance from each preliminary chamber.

Each event will recognize all students placing in the top six (6) in the House of Representatives and Senate, including Champions in those events.

Judges in all rounds will be determined by GFCA officers working in the Tabulation Room of the State Speech and Debate Tournament. Judges may only be replaced by the Tab Room. Changes in judges without consent of the Tab Room may result in the round being re-run. This rule is for all rounds of the State Speech and Debate Tournament.

(a) Judge conflicts should be brought to the immediate attention of a GFCA officer.

(b) In order to be eligible to judge Policy Debate at the Varsity State Tournament, individuals must have judged at least eight (8) rounds at the high school level in Policy Debate since June of the year before the state tournament.

In order to be eligible to judge Public Forum or Lincoln-Douglas Debate at the Varsity State Tournament, individuals must have judged at least (8) rounds at the high school level in that debate event in the two years before the state tournament.

Any debate judge not meeting these qualifications does not count toward a school's judging obligation and will be treated as a free strike. When entering debate judges for the Varsity State Tournament, coaches must list judge qualifications or the judge will not count toward a school's judging obligation and be treated as a free strike.

Awards:

(a) Each event will recognize all students advancing to out-rounds in their events, as well as a champion and runner-up in debate events and the top six (6) in Individual Events/Duo Interpretation, including Champions in those events.

(b) Debate events will award the top ten (10) in each two-person division. Speaker awards will be awarded solely on the basis of performance in the preliminary rounds. Speaker awards will be determined based on High-Low Speaker points. In case of ties, the tiebreakers shall be in the following order:

(1) Double High-Low Speaker Points
(2) Total Speaker points
(3) Opposition Wins
(4) Judge Variance
(5) Random Number (as determined by Tab Room software)

(c) Sweepstakes shall be awarded in three categories: Speech, Debate, and Overall.

(1) Speech Sweepstakes include Dramatic Interpretation, Humorous Interpretation, Extemporaneous Speaking, Program Oral Interpretation, Impromptu and Duo Interpretation; Debate Sweepstakes include all divisions in Policy Debate, Public Forum Debate, Lincoln-Douglas Debate and all Congressional Debate divisions; Overall Sweepstakes includes all events sanctioned by the GFCA.

(2) Sweepstakes formula is determined as follows:

(a) Debate

(1) Policy/Public Forum/Lincoln Douglas: 25 points for Championship entry; 20 points for runner-up entry; 15 points for semi-finals (non-advancing); 10 points for quarter-finals (non-advancing); 5 points for octo-finals (non-advancing) 2 points for double octo-finals (non-advancing).
(2) House/Senate Chambers: 10 points for Championship entry; 8 points for runner-up entry; 5 for 3rd place; 3 points for finalists; 1 point for semi-finalists (non-advancing).

(3) Winner is determined by the summation of the total points, the school with the highest point named Champion, the school with the second highest points named Runner-up, etc.

(b) Speech:

(1) 15 points for 1st Place, 10 points for 2nd place, 5 points for 3rd place, 3 points for finalists; 2 points for semi-finals (non-advancing) and 1 point for quarter-finals (non-advancing).

(3) Winner is determined by the summation of the total points, the school with the highest point named Champion, the school with the second highest points named Runner-up, etc.

(3) The Overall Championship is determined by adding Debate and Speech sweepstakes categories.

(4) The top three schools in all categories will be recognized at the Awards Ceremony. Schools may only win one Sweepstakes Award per category.

(5) In the event of a tie in sweepstakes, the following serves as the tie-break formula, in order until tie is broken.

[a] Total 1st places in the specific category, then total of 2nd places, etc.
[b] If not determined by [a], ties in Sweepstakes ARE allowed.
